for Behavioral Health Performance Measures
Contract No. P1636.4

I. Introduction

The Department, the Community Services Boards and Behavioral Health Authority (CSB) are committed to a collaborative continuous quality improvement (CQI) process aimed at improving the quality, transparency, accessibility, consistency, integration, and responsiveness of services across the Commonwealth pursuant to Code §37.2-508(C) and §37.2-608(C). Exhibit B establishes the CQI framework through which CSBs, providing community behavioral health services, and the Department engage in the CQI processes that are established to track progress towards meeting established benchmarks, identify barriers to achievement, and understand and address root causes that impacts progress. For the purposes of this Exhibit, “benchmark” is defined as the measure target for achievement that is established by the Department in collaboration with CSB.

II. Measure Development

The establishment of benchmarks is a collaborative process with the CSBs and exists as part of the

III. Technical Assistance

An opportunity for technical assistance exists when a CSB requires support in meeting an established goal. The following graduated response will be employed to support the CSB to achievement.

Technical Assistance (TA)

For the purposes of this Exhibit, technical assistance (TA) is defined as targeted, collaborative support provided by the Department to CSBs for the purposes of improving performance on the core measures outlined in [Section V](#) of this exhibit. The Department may initiate the process for its provision of TA when a CSB’s performance does not meet the benchmark. Upon receipt of Department notification of the requirement for CSB participation in TA, the CSB shall respond to the Department within 10 business days to confirm receipt and establish next steps.

Additionally, TA may be requested by the CSB at any time. A CSB may request TA from the Department by completing the [Exhibit B TA Request form](#). The Department shall respond to the CSB request for TA within 10 business days to confirm receipt and establish next steps.

The Department will work to address CSB-raised concerns or identified Department data issues as part of the technical assistance process.

IV. Performance Monitoring

1. Performance Improvement Plan (PIP)

Develop a Performance Improvement Plan (PIP). For the purposes of this Exhibit, a PIP is defined as a written, collaborative agreement between the Department and the CSB that identifies specific action steps required to support the CSB in meeting identified benchmarks for core performance measures as outlined in [Section V](#) of this exhibit. A PIP will not be entered into until at least 6 months of TA has been provided in order to allow for the review of at least 2 consecutive reporting periods , or as otherwise established by the Department.

2. Corrective Action Plan (CAP)

In the event PIP implementation does not result in improvement regarding core performance measures pursuant to [Section V](#) of this exhibit; the Department may seek other remedies as outlined in the Compliance and Remediation section of the performance contract such as initiating a CAP. For the purpose of this Exhibit, a CAP is defined as a written plan to address lack of achievements with identified benchmarks for

I. Background

State agencies often administer federal awards received as pass-through funds to other non-federal entities. These non-federal recipient entities are called Subrecipients, and they assist in carrying out various federally funded programs. Subrecipients are typically units of local government (i.e. city and county agencies) but also include other entities such as Native American tribes, other state agencies, and institutions of higher education, special districts and non-profits. The nature of these relationships is governed by federal statute, regulations, and policies in addition to state laws and regulations. The source of the funding determines the regulations and policies that govern the provision of the funds. The Substance Abuse and Mental Health Services Administration (SAMHSA) is the primary source of federal funds awarded to DBHDS. DBHDS also receives funds from the U.S. Department of Justice, U.S. Department of Education, and other federal entities.

As a primary recipient of federal funds, state agencies serve a pass-through role in which funds are sub-awarded to Subrecipients. federal regulations require that pass-through entities provide monitoring of their Subrecipient which is outlined in Sections 200.300 through 200.476 in 2 C.F.R. Part 200 and Sections 75.300 through 75.477 in 45 C.F.R. Part 75 for SAMHSA awards. Further, audit requirements contained in 2 C.F.R. Part 200, Subpart F and 45 C.F.R. Part 75, Subpart F for SAMHSA awards, require that pass-through entities monitor the activities of their Subrecipient, as necessary, to ensure that federal awards are used appropriately and that performance goals are achieved.

In order to further the provision of necessary goods and services to the community, DBHDS may enter federally funded subrecipient relationships with Community Service Boards (CSBs). This exhibit provides certain compliance requirements and other specific and general grant information for the federal grant funds that DBHDS passes-through to the CSBs.

 - 6. The Department shall consider whether the results of the subrecipient's audits, on-site reviews, or other monitoring indicate conditions that necessitate adjustments to the pass-through entity's own records.

IV. General Federal Grant Requirements for the Department and CSBs

The federal grants listed in Section IV of this Exhibit have requirements that are general to the federal agency that issues the funds. Included below are the general grant terms and conditions for each of the federal agencies for which DBHDS is the pass-through entity to the CSBs.

A. SAMHSA GRANTS

- 1. **Grant Oversight:** The CSBs and the Department are legally and financially responsible for all aspects of this award including funds provided to sub-recipients, in accordance with 2 CFR 200.331 - 200.333 and 45 CFR 75.351 – 75.353, Sub-recipient monitoring and management.
- 2. **Acceptance of the Terms of an Award:** By drawing or otherwise obtaining funds from DBHDS that resulted from funds obtained from the Health and Human Services (HHS) Payment Management System), the subrecipient acknowledges acceptance of the terms and conditions of the award and is obligated to perform in accordance with the requirements of the award. If the subrecipient cannot accept the terms, the subrecipient should notify the Program contact at DBHDS prior to the execution of its Exhibit D or Notice of Award. Once the Exhibit D or Notice of Award is executed by the subrecipient, the contents of the Exhibit D or Notice of Award are binding on the subrecipient until modified and signed by both parties.

Certification Statement: By invoicing DBHDS for funds, the subrecipient certifies that proper financial management controls and accounting systems, to include personnel policies and procedures, have been established to adequately administer Federal awards and drawdown funds. Recipients of Department of Health and Human Services' (DHHS) grants or cooperative agreement awards, and their Subrecipient, must comply with all terms and conditions of their

awards, including: (a) terms and conditions included in the HHS Grants Policy Statement in effect at the time of a new, non-competing continuation, or renewal award (HHS Grants Policy Statement Oct. 1, 2024), including the requirements of HHS grants administration regulations; (b) requirements of the authorizing statutes and implementing regulations for the program under which the award is funded; (c) applicable requirements or limitations in appropriations acts; and (d) any requirements specific to the particular award specified in program policy and guidance, the FOA, the NOFO, or the NOA.

3. **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards:** The NOA issued is subject to the administrative requirements, cost principles, and audit requirements that govern Federal monies associated with this award, as applicable, in the Uniform Guidance 2 CFR Part 200 as codified by HHS at 45 CFR Part 75.
4. **Award Expectations:** The eligibility and program requirements originally outlined in the FOA or NOFO must continue to be adhered to as the funded project is implemented. Recipients must comply with the performance goals, milestones, outcomes, and performance data collection as reflected in the FOA and related policy and guidance. Additional terms and/or conditions may be applied to this award if outstanding financial or programmatic compliance issues are identified by Substance Abuse and Mental Health Services Administration (SAMHSA). Subrecipient must comply with the Scope of Services of their award.
5. **Flow down of requirements to sub-recipients:** The grantee, as the awardee organization, is legally and financially responsible for all aspects of this award including funds provided to sub-recipients, in accordance with 2 CFR 200.331 – 2 CFR 200.332 and 45 CFR 75.351 – 75.353, Subrecipient monitoring and management.
6. **Risk Assessment:** SAMHSA’s Office of Financial Advisory Services (OFAS) may perform an administrative review of the subrecipient organization’s financial management system. If the review discloses material weaknesses or other financial management concerns, grant funding may be restricted in accordance with 45 CFR 75 and 2 CFR 200, as applicable. DBHDS reviews and determines the risk associated with its Subrecipient. As part of the risk assessment process, DBHDS may perform an administrative review of the subrecipient’s financial management system.
7. **Improper Payments:** Any expenditure by the Subrecipient which is found by auditors, investigators, and other authorized representatives of DBHDS, the Commonwealth of Virginia, the U.S. Department of Health and Human Services, the U.S. Government Accountability Office or the Comptroller General of the United States to be improper, unallowable, in violation of federal or state law or the terms of the NOA, FOA, NOFO or this Exhibit, or involving any fraudulent, deceptive, or misleading representations or activities of the Subrecipient, shall become Subrecipient’s liability, to be paid by Subrecipient from funds other than those provided by DBHDS for the given program or any other funding agreements between DBHDS and the Subrecipient. This provision shall survive the expiration or termination of the applicable Performance Contract.
8. **Treatment of Property and Equipment:** If the Program permits the Subrecipient or entities that receive funding from the Subrecipient to purchase real property or equipment with grant funds, the Program retains a residual financial interest, enabling the Program to recover the assets or determine final disposition. This will be accomplished on a case-by-case basis, according to the federal grant guidelines applicable to the grant that is funding the service(s) in accordance with 2 CFR 200.1 and 45 CFR 75.2. Equipment is defined in the defined terms section of this Exhibit.
9. **Program Income:** Program income accrued under this grant award must be reported to the Recipient and must be used to further the objectives of the grant project and only for allowable costs.

 - 2) the NOA; and

The Subrecipient shall adopt such additional financial management procedures as may from time to time be prescribed by DBHDS if required by applicable laws, regulations or guidelines from its federal and state government funding sources. Subrecipient shall maintain detailed, itemized documentation and records of all income received and expenses incurred pursuant to this Exhibit.

11. **Audit of Financial Records:** The Subrecipient shall comply with the audit and reporting requirements defined by the Federal Office of Management and Budget (OMB) 2 CFR 200.500 - 200.521 (Audits of States, Local, Governments and Non-Profit organizations) and 45 CFR 75.500 – 75.521 as applicable. The Subrecipient will, if total Federal funds expended are \$1,000,000 or more a year, have a single or program specific financial statement audit conducted for the annual period in compliance with the General Accounting Office audit standards (2 CFR 200.501(a) and 45 CFR 75-501(a)).

If total federal funds expended are less than \$1,000,000 for a year the Subrecipient is exempt from federal audit requirements (2 CFR 200.501(d) and 45 CFR 75-501(d)), but the Subrecipient's records must be available to the Pass-Through Agency and appropriate officials of HHS, SAMHSA, the U.S. Government Accountability Office and the Comptroller General of the United States, and it must still have a financial audit performed for that year by an independent Certified Public Accountant. Further, the subrecipient shall complete the certification letter included in Exhibit F (B) disclosing that they are not subject to the single audit requirement.

Should an audit by authorized state or federal official result in disallowance of amounts previously paid to the Subrecipient, the Subrecipient shall reimburse the Pass-Through Agency upon demand.

Pursuant to 2 CFR 200.334 and 45 CFR 75.361, the Subrecipient shall retain all books, records, and other relevant documents for three (3) years from the end of the calendar year in which the grant period terminates. If any litigation, claim, or audit is initiated prior to the expiration of the 3-year period, all records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. DBHDS, its authorized agents, and/or federal or state auditors shall have full access to and the right to examine any of said materials during said period.

12. **Accounting Records and Disclosures:** The Subrecipient must maintain records which adequately identify the source and application of funds provided for financially assisted activities, including awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income. The Subrecipient should expect that the Recipient and SAMHSA may conduct a financial compliance audit and on-site program review of this project as outlined in paragraph (11).
13. **Standards for Documentation of Personnel Expenses:** The Subrecipient shall comply with 2 CFR 200.430 and 45 CFR 75.430 Compensation-Personal Services and 2 CFR 200.431 and 45 CFR 75.431 Compensation-Fringe Benefits as required by the Federal Office of Management and Budget (OMB) Circular 2 CFR 200 (Cost Principles for State, Local and Indian Tribal Government). 14. **Non-Supplant**: Federal award funds must supplement, not replace (supplant) nonfederal funds. Applicants or award recipients and Subrecipient may be required to demonstrate and document that a reduction in non-federal resources occurred for reasons other than the receipt of expected receipt of federal funds.
15. **Unallowable Costs**: All costs incurred prior to the award issue date and costs not consistent with the FOA/NOFO, 2 CFR Part 200, 45 CFR Part 75, and the HHS Grants Policy Statement, are not allowable.

17. **Intent to Utilize Funding to Enter into a Procurement/Contractual Relationship**: If the Subrecipient utilizes any of these funds to contract for any goods or services, the Subrecipient must ensure that the resultant contract complies with the terms of Appendix II, 45 C.F.R. 75 which governs the contractual provisions for non-federal entity contracts under federal awards issued by the Department of Health and Human Services.
18. **Ad Hoc Submissions**: Throughout the project period, SAMHSA or DBHDS may require submission of additional information beyond the standard deliverables. This information may include, but is not limited to the following:

 - Proof of Project implementation
19. **Conflicts of Interest Policy**: Subrecipient must establish written policies and procedures to prevent employees, consultants, and others (including family, business, or other ties) involved in grant-supported activities, from involvement in actual or perceived conflicts of interest. The policies and procedures must:
 - Address conditions under which outside activities, relationships, or financial interest are proper or improper.
 - Provide for advance disclosure of outside activities, relationships, or financial interest to a responsible organizational official.
 - Include a process for notification and review by the responsible official of potential or actual violations of the standards; and
 - Specify the nature of penalties that may be imposed for violations.
20. **Administrative and National Policy Requirements**: Public policy requirements are requirements with a broader national purpose than that of the Federal sponsoring program or award that an applicant/recipient/subrecipient must adhere to as a prerequisite to and/or condition of an award. Public policy requirements are established by statute, regulation, or Executive order. In some cases, they relate to general activities, such as preservation of the environment, while, in other cases they are integral to the purposes of the award-supported activities. An application funded with the release of federal funds through a grant award does not constitute or imply compliance with federal statute and regulations. Funded organizations are responsible for ensuring that their activities comply with all applicable federal regulations.
21. **Marijuana Restriction**: Grant funds may not be used, directly or indirectly, to purchase, prescribe, or provide marijuana or treatment using marijuana. Treatment in this context includes the treatment of opioid use disorder. 22. **Confidentiality of Alcohol and Drug Abuse Patient Records:** The regulations (42 CFR 2) are applicable to any information about alcohol and other drug abuse patients obtained by a "program" (42 CFR 2.11), if the program is federally assisted in any manner (42 CFR 2.12b). Accordingly, all project patient records are confidential and may be disclosed and used only in accordance with 42 CFR Part 2. The recipient and/or subrecipient is responsible for assuring compliance with these regulations and principles, including responsibility for assuring the security and confidentiality of all electronically transmitted patient material.
23. **Drug-Free Workplace:** The Subrecipient agrees to 1) provide a drug-free workplace for the Subrecipient’s employees; 2) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Subrecipient’s workplace and specifying the actions that will be taken against employees for violations of such prohibition; 3) state in all solicitations or advertisements for employees placed by or on behalf of the Subrecipient that the Subrecipient maintains a drug-free workplace; and 4) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.

This requires the subrecipient to obtain a Unique Entity Identifier (UEI) to be eligible to receive subrecipient awards.
26. **Acknowledgement of Federal Funding in Communications and Contracting:** As required by HHS appropriations acts, all HHS recipients and Subrecipient must acknowledge Federal funding when issuing statements, press releases, requests for proposals, bid invitations, and other documents describing projects or programs funded in whole or in part with Federal funds. Recipients and Subrecipient are required to state: (1) the percentage and dollar amount of the total program or project costs financed with Federal funds; and (2) the percentage and dollar amount of the total costs financed by nongovernmental sources.
27. **Acknowledgement of Federal Funding at Conferences and Meetings:** Allowable conference costs paid by the non-Federal entity as a sponsor or host of the conference may include rental of facilities, speakers' fees, costs of meals and refreshments, local transportation, and other items incidental to such conferences unless further restricted by the terms and conditions of the Federal award. As needed, the costs of identifying, but not providing, locally available dependent-care resources are allowable. - a) Title to intangible property (as defined in the Definitions Section of this Exhibit) acquired under a federal award vest upon acquisition in the non-Federal entity. The non-federal entity must use that property for the originally authorized purpose and must not encumber the property without approval of the federal awarding agency (SAMHSA). When no longer needed for the originally authorized purpose, disposition of the intangible property must occur in accordance with the provisions in 2 CFR 200.313(e) and 45 CFR 75.320(e).
 - b) The non-federal entity may copyright any work that is subject to copyright and was developed, or for which ownership was acquired, under a federal award.  - 1) In response to a Freedom of Information Act (FOIA) request for research data relating to published research findings produced under a Federal award that were used by the Federal Government in developing an agency action that has the force and effect of law, the HHS awarding agency must request, and the non-Federal entity must provide, within a reasonable time, the research data so that they can be made available to the public through the procedures established under the FOIA. If the HHS awarding agency obtains the research data solely in response to a FOIA request, the HHS awarding agency may charge the requester a reasonable fee equaling the full incremental cost of obtaining the research data. This fee should reflect costs incurred by the Federal agency and the non-Federal entity. This fee is in addition to any fees the HHS awarding agency may assess under the FOIA (5 U.S.C. 552(a)(4)(A)).
 - 2) Published research findings means when:
 - (i) Research findings are published in a peer-reviewed scientific or technical journal;

Further, the subrecipient shall complete the certification letter included in Exhibit F (B) disclosing that they are not subject to the single audit requirement.

- Include a process for notification and review by the responsible official of potential or actual violations of the standards; and
 - Specify the nature of penalties that may be imposed for violations.
22. Administrative and National Policy Requirements: Public policy requirements are requirements with a broader national purpose than that of the Federal sponsoring program or award that an applicant/recipient/subrecipient must adhere to as a prerequisite to and/or condition of an award. Public policy requirements are established by statute, regulation, or Executive order. In some cases, they relate to general activities, such as preservation of the environment, while, in other cases they are integral to the purposes of the award-supported activities. An application funded with the release of federal funds through a grant award does not constitute or imply compliance with federal statute and regulations. This prohibition does not apply to those providing such treatment in the context of clinical research permitted by the Drug Enforcement Agency and under an FDA-approved investigational new drug application where the article being evaluated is marijuana or a constituent thereof that is otherwise a banned controlled substance under federal law.
24. Confidentiality of Alcohol and Drug Abuse Patient Record: The regulations (42 CFR 2) are applicable to any information about alcohol and other drug abuse patients obtained by a "program" (42 CFR 2.11), if the program is federally assisted in any manner (42 CFR 2.12(b)). Accordingly, all project patient records are confidential and may be disclosed and used only in accordance with 42 CFR Part 2. The recipient and/or subrecipient is responsible for assuring compliance with these regulations and principles, including responsibility for assuring the security and confidentiality of all electronically transmitted patient material.
25. Drug-Free Workplace: During the performance of this agreement, the Subrecipient agrees to 1) provide a drug-free workplace for the Subrecipient’s employees; 2) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Subrecipient’s workplace and specifying the actions that will be taken against employees for violations of such prohibition; 3) state in all solicitations or advertisements for employees placed by or on behalf of the Subrecipient that the Subrecipient maintains a drug-free workplace; and 4) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.
26. Promotional Items: Pursuant to 2 CFR 200.421(e), Federal funding awarded under Coronavirus State and Local Recovery Funds may not be used for Promotional Items.

B. Requirement for Unique Entity Identifier (UEI) if you are authorized to make subawards under this award, you: Must notify potential subrecipients that no governmental organization, foreign public entity, domestic or foreign nonprofit organization, or Federal agency serving as a subrecipient may receive a subaward unless the entity has provided its unique entity identifier; and

May not make a subaward to a governmental organization, foreign public entity, domestic or foreign nonprofit organization, or Federal agency serving as a subrecipient, unless the entity has provided its unique entity identifier.

The Subrecipient will notify DBHDS when violations are reported to the federal government within three business days.

35. Intangible Property Rights Pursuant to 2 CFR 200.315:

- A. Title to intangible property (as defined in the Definitions Section of this Agreement) acquired under a Federal award vest upon acquisition in the non-Federal entity. The non-Federal entity must use that property for the originally authorized purpose and must not encumber the property without approval of the Federal awarding agency (SAMHSA). When no longer needed for the originally authorized purpose, disposition of the intangible property must occur in accordance with the provisions in 2 CFR 200.313(e).
- B. The non-Federal entity may copyright any work that is subject to copyright and was developed, or for which ownership was acquired, under a federal award. 1) In response to a Freedom of Information Act (FOIA) request for research data relating to published research findings produced under a Federal award that were used by the Federal Government in developing an agency action that has the force and effect of law, the HHS awarding agency must request, and the non-Federal entity must provide, within a reasonable time, the research data so that they can be made available to the public through the procedures established under the FOIA. If the HHS awarding agency obtains the research data solely in response to a FOIA request, the HHS awarding agency may charge the requester a reasonable fee equaling the full incremental cost of obtaining the research data. 10.1 Children’s Mental Health Block Grant

Scope of Services and Deliverables

Children’s Mental Health Block Grant funds are to be used to reduce states’ reliance on hospitalization and develop effective community-based mental health services for children with Serious Emotional Disturbance (SED). Children with SED includes persons up to age 18 who have a diagnosable behavioral, mental, or emotional issue (as defined by the DSM). The state MHBG allotments are used to support community programs, expanded children’s services, home-based crisis intervention, school-based support services, family and parenting support/education, and outreach to special populations

The purpose of these funds is to provide community-based services to youth (up to age 18), who have serious emotional disturbance with the goal of keeping youth in the community and reducing reliance on out-of-home placements. Services may include assessments and evaluations, outpatient or office-based treatment, case management, community-based crisis services, intensive community-based supports, community-based home services, and special populations of youth with SED such as juvenile justice, child welfare, and/other under-served populations. Services cannot be used for residential or inpatient care.

A. The CSB Responsibilities: The CSB agrees to comply with the following requirements.

1. The CSB shall use the Children’s Mental Health Block Grant funds to reduce states’ reliance on hospitalization and develop effective community-based mental health services for children with Serious Emotional Disturbance (SED). Children with SED includes persons up to age 18 who have a diagnosable behavioral, mental, or emotional issue (as defined by the DSM). This condition results in a functional impairment that substantially interferes with, or limits, a child’s role or functioning in family, school, or community activities.
2. The CSB shall comply with the additional uses or restrictions for this grant pursuant to Exhibit F of the performance contract.

B. The Department Responsibilities: The Department agrees to comply with the following requirements. The Department will periodically review case files through regional consultant block grant reviews to ensure funds are being spent accordingly.

ACT is a highly coordinated set of services offered by a group of medical, behavioral health, peer recovery support providers and rehabilitation professionals in the community who work as a team to meet the complex needs of individuals with severe and persistent mental illness. An individual who is appropriate for ACT requires this comprehensive, coordinated approach as opposed to participating in services across multiple, disconnected providers, to minimize risk of hospitalization, homelessness, substance use, victimization, and incarceration. An ACT team provides person-centered services addressing the breadth of individuals' needs and is oriented around individuals' personal goals. A fundamental charge of ACT is to be the first line (and generally sole provider) of all the services that an individual receiving ACT needs. Being the single point of responsibility necessitates a higher frequency and intensity of community-based contacts between the team and individual, and a very low individual-to-staff ratio. ACT services are flexible; teams offer personalized levels of care for all individuals participating in ACT, adjusting service levels to reflect needs as they change over time.

An ACT team assists individuals in advancing toward personal goals with a focus on enhancing community integration and regaining valued roles (e.g. worker, daughter, resident, spouse, tenant, or friend). Because an ACT team often works with individuals who may demonstrate passive or active resistance to participation in services, an ACT team must carry out thoughtfully planned assertive engagement techniques including rapport-building strategies, facilitating the individual in meeting basic needs, and motivational interviewing interventions. The team uses these techniques to identify and focus on individuals' life goals and motivations to change. Likewise, it is the team's responsibility to monitor individuals' mental status and provide needed supports in a manner consistent with their level of need and functioning. The ACT team delivers all services according to a recovery-based philosophy of care. Individuals receiving ACT should also be engaged in a shared decision-making model, assistance with accessing medication, medication education, and assistance in medication to support skills in taking medication with greater independence. The team promotes self-determination, respects the person participating in ACT as an individual in their own right, and engages registered peer recovery specialists to promote hope that recovery from mental illness and regaining meaningful roles and relationships in the community are possible.

A. The CSB Responsibilities: The CSB agrees to comply with the following requirements.

1. 11.2. Children’s Mental Health Initiative (MHI) Funds

Scope of Services and Deliverables

The Mental Health Initiative (MHI) Fund was established by the General Assembly in FY 2000 to create a dedicated source of funding for mental health and substance abuse services for children and adolescents with serious emotional disturbances, at risk for serious emotional disturbance, and/or with co-occurring disorders with priority placed on those children who, absent services, are at-risk for removal from the home due to placement by a local department of social services, admission to a congregate care facility or acute care psychiatric hospital or crisis stabilization facility, commitment to the Department of Juvenile Justice, or parental custody relinquishment.

These services have the purpose of keeping children in their homes and communities and preserving families whenever possible.

A. The CSB Responsibilities: The CSB agrees to comply with the following requirements.

1. MHI funds must be used exclusively to serve currently unserved children and adolescents or provide additional services to underserved children and adolescents with serious emotional disturbances, at risk for serious emotional disturbance, and/or with co-occurring disorders with priority placed on those children who, absent services, are at-risk for removal from the home due to placement by a local department of social services, admission to a congregate care facility or acute care psychiatric hospital or crisis stabilization facility, commitment to the Department of Juvenile Justice, or parental custody relinquishment. These funds shall be used exclusively for children and adolescents, not mandated for services under the Children's Services Act. Underserved refers to populations which are disadvantaged because of their ability to pay, ability to access care, or other disparities for reasons of race, religion, language group, sexual orientation or social status.
2. Children and adolescents must be under 18 years of age at the time services are initiated. MHI funds can be used to bridge the gap between the child and adolescent and adult service systems, if the service was initiated before the adolescent’s 18th birthday. Services used to bridge the gap can only be used for up to one (1) year. MHI funds cannot be used to initiate new services once an adolescent turns 18 years of age.
3. MHI funds must be used to purchase services which will be used to keep the child or adolescent in the least restrictive environment and living in the community.
4. CSBs may use MHI funds to support personnel used to provide services to children and families. Each service provided shall be linked to an individualized service plan for an individual child and submit the required program and financial data reports in the format established by the Department.
5. MHI funds should not be used when another payer source is available.
6. Services must be based on the individual needs of the child or adolescent and must be included in an individualized services plan. Services must be child-centered, family focused, and community-based. The participation of families is integral in the planning of these services.

A CSB's primary role in a juvenile detention center is providing short-term mental health and substance use disorder services to youth detained in the center with mental illnesses or mental illnesses and co-occurring substance use disorders. As part of this role, a CSB also consults with juvenile detention center staff on the needs and treatment of youth. This may include case consultation with detention center staff. Since the youth have been court ordered to the center, they are under the jurisdiction of the center for care. 11.8 Housing Flexible Funding Program (State Rental Assistance Program) (790 Funds DD SRAP)

Scope of Services and Deliverables

Individuals with developmental disabilities face numerous financial barriers to making the initial transition to integrated, independent housing and to maintaining this housing. Most adults with developmental disabilities have income below 30% of the area median income. Those who have Medicaid or Supplemental Security Income must meet strict asset limits that prevent them from saving enough to cover one-time, upfront expenses to rent housing or to cover expenses that, if not paid, could jeopardize their housing stability.

The Flexible Funding Program enables adults with developmental disabilities to overcome financial barriers to making initial transitions to integrated, independent housing and to maintaining housing stability. Six Community Services Boards administer the Program in their respective DBHDS regions. Program operations include:

1. making Flexible Funding applications and program materials available to support coordinators in the region
2. providing technical assistance to support coordinators on the program requirements and application process
3. reviewing and adjudicating Flexible Funding applications in accordance with the Flexible Funding 2.0 Guidelines (“the Guidelines”)
4. authorizing and processing payment or reimbursement for approved goods and services in accordance with the Flexible Funding 2.0 Guidelines (“the Guidelines”)

2. The CSB shall ensure it can access the DBHDS cloud-based electronic file sharing system which contains program materials required to administer the Program.
3. The CSB shall implement strategies to pay time-sensitive expenses such as, but not limited to holding fees, security deposits and moving company charges as soon as possible. Strategies may include issuing promissory notes, notifying vendors that applicants’ Flexible Funding requests have been approved, or identifying third parties that can front payment of expenditures immediately and request reimbursement from Flexible Funding.
4. The CSB shall submit programmatic and financial reports in accordance with the Guidelines using the Flexible Funding workbook provided by DBHDS.
5. The CSB shall maintain program and financial records in accordance with the Guidelines.

Support coordinators are responsible for informing applicants about the status of their applications.
7. The CSB shall review and adjudicate requests for reasonable accommodations within the program in accordance with the Guidelines.

FY26 –27 Community Services Performance Contract
Exhibit M: Department of Justice Settlement Agreement Requirements
Contract No. P1636. [CSB Code].1

DRAFT

Appendix C: Management of Unexpended State Funds

Purpose

The purpose of this Appendix is to establish standardized limits, approval requirements, and oversight responsibilities for the accumulation and use of unexpended state funds by Community Services Boards (CSBs) and Regional Programs administered by a Regional fiscal agent.

Unexpended balance refers to funds allocated or awarded to a CSB that are not spent or paid out by the CSB during a fiscal year or other appropriation term.

For the purposes of this Appendix the definition for Unexpended, Unspent and Carry Over funds is the same.

Section 1: CSB Unspent Balance Requirements

1.2 State General Funds

1. Regional Program Funds

Unexpended regional program funds may be managed by the fiscal agent and participating CSBs, and in accordance with Appendix F: Regional Program Operations of Addendum I Administrative Requirements and Processes and Procedures, and that provided:

1. All uses are approved collectively by participating CSBs in their established Memorandum of Agreement (MOA).
2. Uses comply with allowable purposes or an alternative use proposed by the region, in line with the appropriation act and authorized by DBHDS.
3. Procedures for managing regional funds are documented in the regional program's Memorandum of Agreement (MOA) and align with this Appendix and the current performance contract.

Balances may be:

1. Prorated to individual CSBs for local use as outlined in original plan from the Department. Meaning, funds are divided among the individual CSBs. Each CSB gets its own share based on a formula. It can be based on population, need, or another prorated method- based on an agreed upon methodology to deliver the service in that region through the prior agreed upon plan unless circumstances have changed and the methodology needs to change. The money is then used locally by each CSB according to the plan approved by Department.
2. Allocated collectively for regional initiatives. Means, instead of part of the regional funds going to each CSB separately, the funds are pooled together. The combined amount is used for projects or initiatives that benefit the entire region, not just a single CSB. Decisions about use are made at the regional level rather than by individual CSBs.

Appendix C: Management of Unexpended State Funds

3. Managed by the fiscal agent as agreed by all participating CSBs.

2. Non-Regional Funds:
Funds allocated to an individual CSB to develop a program service within the operational scope of that individual CSB. Unexpended General Fund balances awarded to individual CSBs are managed by the CSB and in compliance with requirements outlined in Section 2.

Section 2: Allowable Uses of Unspent State Fund Balances

Consistent with the intent of the Grants to Localities item in the Appropriation Act, Board Policy 6005(FIN)94-2, and §§ 37.2-500 or 37.2-601 of the Code of Virginia:

1. CSBs may use unspent balances of state funds only for mental health, developmental, and substance use disorder services purposes.
2. Any other uses are prohibited and constitute a violation of the CSB's performance contract.
3. Categories:
 - Restricted – Limited to the permissible purpose.
 - Unrestricted – Funds are used solely for allowable mental health, developmental, or substance use disorder service purposes consistent with the Appropriation Act and applicable Code of Virginia provisions. Unrestricted balances will be monitored by the Department.

Repayment Obligation

Funds used for disallowed, unauthorized or out-of-scope activities must be repaid immediately to the Department or the Department shall reduce future disbursements to offset amount(s) owed. It is the expectation of the Department that CSBs request technical assistance if uncertain of permissible use of funding.

Section 3: Collective Uses of Unspent State Fund Balances

A group of CSBs may pool unspent balances to address one-time issues or needs that are more effectively or efficiently addressed collectively. CSBs shall share these written plans with the Department for review.

- Pooled restricted funds must adhere to original restrictions.
- All uses must comply with principles and procedures in this Appendix.

Appendix C: Management of Unexpended State Funds

Section 4: Carryforward Limits

1. Individual CSBs: May carry forward from previous fiscal year(s) up to 25% of the total state appropriation allocated for the current fiscal year. DBHDS shall provide timely notification regarding the individual funding line items within a defined funding category which exceed the 25% cap and work collaboratively with the CSBs regarding the funding line items that should be paused in order to spend down those funds which exceed the 25% cap.
2. Regional Programs: May carry forward from previous fiscal year(s) up to 25% of the total state appropriation allocated for the current fiscal year. DBHDS shall provide timely notification regarding the individual funding line items within a defined funding category which exceed the 25% cap and work collaboratively with the CSBs regarding which funding line items should be paused in order to spend down those funds which exceed the 25% cap.
3. The 25% carryforward limitation shall apply only to restricted state fund balances.
4. There shall be no percentage cap on the carryforward of unrestricted (non-restricted) state fund balances. Unrestricted state funds may be carried forward without limitation, provided that:

Funds are used solely for allowable mental health, developmental, or substance use disorder service purposes consistent with the Appropriation Act, Board Policy 6005(FIN)94-2, and §§ 37.2-500 or 37.2-601 of the Code of Virginia.

Monthly reporting regarding the above will be provided by DBHDS to CSBs until such time as funding line item in questions is below the 25% threshold. At which point, funding will resume at the original dispensation.

Section 5: Exception Process

CSBs and Regional Programs may request exceptions to percentage limits for documented, one-time, or strategic uses, including:

1. Capital projects
2. Time-limited investments
3. Infrastructure, technology, or security enhancements
4. Transitional program requirements
5. Urgent needs identified by the Department
6. Funds distributed in the last two quarters of the fiscal year

Capital Project Exception

Amounts reserved for approved capital projects shall be excluded from carryforward calculations if:

Appendix C: Management of Unexpended State Funds

1. Approved by the CSB board and follows Appendix F: Regional Program Operations of Addendum I Administrative Requirements and Processes and Procedures.
2. Documented in a specific exhibit as capital with standardized language provided by the Department
3. Funds are designated for purchase, construction, renovation, or replacement of land/buildings; purchase/replacement of capital equipment or facility-related machinery; or purchase of information technology system equipment or software.

Department Authority:

The Department may approve, modify, or deny exception requests and provide timely communication to CSBs. Requests must include:

1. A clearly stated decision
2. Detailed justification for the decision
3. Cost estimate
4. Timeline
5. Explanation of why expenditure cannot be accommodated within standard limits.
6. Any proposed alternatives or adjustments which might result in approval if the request has been denied

Department Responsibilities:

Responses to CSB requests for capital project exceptions will be provided to the CSB within 2 weeks of receipt. CSBs reserves the right to appeal any decision or escalate if a response is not timely. The appeal process begins with working with the Deputy Commissioner of Community. If a timely agreeable resolution is not achieved the CSB reserves the right to appeal to the Commissioner of DBHDS within 90 days of receipt of the response. Responses will include:

1. A clearly stated decision
2. A detailed justification for the decision
3. Any proposed alternatives or adjustments which might result in approval if the request has been denied

Section 6: Reporting Requirements

CSBs and Regional Programs shall report all unexpended balances, proposed carryforwards, and exception requests in the format required in mid-year and end-of-year performance contract reporting.

Section 7: Carryforward Balances Oversight

The Department shall review all carryforward requests above 25% to assess:

Appendix C: Management of Unexpended State Funds

1. Progress toward expenditure
2. Compliance with intended use
3. Overall program service performance
4. Emerging risks or delays

CSBs and Regional Programs shall provide updated expenditure reports using a jointly developed template provided by DBHDS at a cadence that is mutually agreed upon. Section 8: Effective Period of Restrictions

Restricted state funds remain restricted as originally appropriated. After the biennium, any unexpended restricted funds shall remain restricted for permissible purposes.

The Department may request accounting of accumulated restricted fund. The Department may direct CSBs to repurpose or reallocate funds within existing programs, services or projects, based on need and with appropriate authority from the General Assembly where required.

Section 9: Department Responsibilities

Allocations of State Funds

Per State Board Policy 6005 and §§ 37.2-509 or 37.2-611 of the Code of Virginia, the Department shall allocate funds in Grants to Localities without applying estimated year-end balances to next year's awards and in accordance with procedures established by the Department and performance contracts. Allocations of state-controlled funds to the CSBs shall be determined by the Department, after careful consideration of all of the factors noted in the current Board Policy and Code and providing sufficient notification to CSB before implementing any reduction of state-controlled funds

Review of Unspent Balances

The Department may require CSBs to report any unspent funds from the previous year. If a CSB's unspent funds are above allowed limits, the Department may pause current-year payments. If performance data shows ongoing low program service performance and high unspent balances, the Department may also withhold current-year funds. The Department may create additional requirements for how unspent funds are identified, used, reported, or redistributed.

The Department will work with CSBs to resolve compliance issues. It will provide guidance on what is allowed and not allowed use of unspent funds, including a timely review and approval process, and will offer technical assistance when needed.

Reinstatement: DBHDS may reinstate payments to CSBs within the current fiscal year if it determines that withholding such payments results in a material operational impact. Material operational impact includes, but is not limited to, disruptions to service delivery, staffing,

Appendix C: Management of Unexpended State Funds

compliance requirements, or continuity of care. DBHDS will provide written notification of any decision to reinstate payments, including the effective date and any applicable term.

Appendix F: Regional Program Operations ~~Operating Principles~~

A regional program can be a highly effective way to allocate and manage resources, coordinate the delivery and manage the utilization of high cost or low incidence services, and promote the development of services where economies of scale and effort could assist in the diversion of individuals from admission to state facilities.

A regional program is funded by the Department through the community services board or behavioral health authority, hereafter referred to as the CSB, and operated explicitly to provide services to individuals who receive services from the CSBs participating in the program. A regional program may be managed by the participating CSBs or by one CSB, have single or multiple service sites, and provide one or more types of service. A regional program also may include self contained, single purpose programs (e.g., providing one type of core service, usually residential) operated by one CSB for the benefit of other CSBs or programs contracted by one CSB that serve individuals from other CSBs.

ADDENDUM I
ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

Each individual receiving services provided through a regional program must be identified as being served by a particular CSB. That CSB will be responsible for contracting for and reporting on the individuals that it serves and the services that it provides; and each individual will access services through and have his or her individualized services plan managed by that particular CSB.

Regional Program Operating Principles

The regional program operating principles provide guidance for CSBs to implement and manage identified regional programs and to account for services provided by the programs. The principles also provide guidance for the Department to monitor regional programs on a more consistent basis.

1. **Regional Program Funding:** Depending on the design of a regional program, the Department may disburse state and/or federal funds for a regional program to each participating CSB or to one CSB that operates a regional program or agrees to serve as the fiscal agent for a regional program. All regional programs shall be included in the performance contract and reflected in required reports.
 - a. If the Department disburses regional program funds to each participating CSB, each participating CSB shall follow existing performance contract and report requirements and procedures for that portion of the regional program funded by that CSB.
 - b. If the Department disburses regional program funds to a CSB that operates a regional program on behalf of the other CSBs in a region, the operating CSB shall follow existing performance contract and report requirements and procedures, as if the regional program were its own program.
 - c. If the Department disburses regional program funds to a CSB that has agreed to serve as the fiscal agent (fiscal agent CSB) for the regional program, disbursements will be based on, accomplished through, and documented by appropriate procedures, developed and implemented by the region.
 - d. When funds are disbursed to a fiscal agent CSB, each participating CSB shall identify, track, and report regional program funds that it receives and spends as funds for that regional program. Each participating CSB, including the fiscal agent CSB, shall reflect in its financial and program reports only its share of the regional program, in terms of individuals served, services provided, funds received, expenses made, and costs of the services. Any monitoring and reporting of and accountability for the fiscal agent CSB's handling of state or federal funds for a regional program shall be accomplished through the performance contract and reports. Alternately, if the participating CSBs elect, each CSB may perform these functions for its share of the regional program.

**AMENDMENT
AMENDED AND RESTATED

MASTER AGREEMENT
ADDENDUM I
ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

- e. When funds are disbursed to a fiscal agent CSB that pays a contract agency to deliver regional program services, the fiscal agent CSB and participating CSBs may elect to establish an arrangement in which the fiscal agent CSB reports all of the funds and expenditures in the fiscal report while the participating CSBs and the fiscal agent CSB report information about the program service delivery. Alternately, if the participating CSBs elect, the fiscal agent CSB may admit the individuals served by other participating CSBs and, for purposes of this regional program, treat those individuals as its own for documentation and reporting purposes.
2. Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.
 - a.
 3. **Financial Reporting:** All funds, expenses, and costs for a regional program shall be reported to the Department only once; they may be reported by individual CSBs, the CSB that serves as the fiscal agent, or both, depending on how the regional program is designed and operates. For example, the fiscal agent CSB might report the revenues and expenses for a regional program provided by a contract agency, and a CSB that refers individuals it serves to that regional program may report the service and cost information related to those individuals.
 4. **Consumer Reporting:** Each individual who receives services through a regional program shall be reported to the Department only once for a particular service. However, an individual who receives services from more than one CSB should be reported by each CSB that provides a service to that individual. For example, if an individual receives outpatient mental health services from one CSB and residential crisis stabilization services from a second CSB operating that program on behalf of a region, the individual would be admitted to each CSB and each CSB would report information about the individual and the service it provided to the individual.
 5. **Service Reporting:** Each service provided by a regional program shall be reported only once, either by the CSB providing or contracting for the service or the CSB that referred individuals it served to the regional program operated or contracted by another CSB or by the region.
 6. **Contracted Regional Programs:** When the case management CSB refers an individual to a regional program that is operated by a contract agency and paid for by the regional program's fiscal agent CSB, the case management CSB shall report the service and cost information, and funding and expense information. Alternately, if the participating CSBs elect, the fiscal agent CSB could admit the individual for this service and report information about the individual receiving services, services, costs, funds, and expenses itself; in this situation, the case management CSB would report nothing about this service.

7. Transfers of Resources Among CSBs: CSBs may transfer state, local, and federal funds to each other to pay for services that they purchase from each other.

8. Regional Administrative and Management Expenses: CSBs and the Department have provider and local or state authority roles that involve non-direct services tasks such as utilization management and regional authorization committees. These roles incur additional administrative and management expenses for the programs. CSBs shall report these expenses as part of their costs of delivering regional services. The Department shall factor in and accept reasonable administrative and management expenses as allowable costs in regional programs in accordance with the DBHDS Federal and State Indirect Cost Rate Policy.

9. Local Supplements: If a CSB participating in a regional program supplements the allocation of state and/or federal funds received by the CSB operating that program through transferring resources to the operating CSB, the participating CSB shall show the transfer as an expense on financial forms but not as a cost on service forms in its performance contract and reports. Then, the participating CSB will avoid displaying an unrealistically low service cost in its reports for the regional program and double counting individuals served by and service units delivered in the regional program, since the operating CSB already reports this information.

10. Balances: ~~Unexpended balances of current or previous fiscal year regional program funds should not be retained by the participating CSBs to which the regional fiscal agent CSB or the Department disbursed the funds, unless this is approved by the region for purposes that are consistent with the legislative intent of the Appropriation Act item that provided the funds. Otherwise, the balances should be available for redistribution during the fiscal year among participating CSBs to ensure maximum utilization of these funds. CSBs shall follow Appendix C of this Addendum. Each region shall establish procedures for monitoring expenditures of regional program funds. and redistributing those unexpended balances to ensure that uses of those funds are consistent with the legislative intent of the Appropriation Act item that provided the funds.~~

11. Issue Resolution: Regional program funding issues, such as the amount, sources, or adequacy of funding for the program, the distribution of state allocations for the regional program among participating CSBs, and financial participation of each CSB whose individuals receive services from the regional program, should be resolved at the regional level among CSBs participating in the program, with the Department providing information or assistance as needed or required.

Regional Program Models

The following models have been developed for CSBs and the Department to use in designing, implementing, operating, monitoring, and evaluating regional programs. These models are paradigms that could be altered by mutual agreement among the CSBs and the Department as regional circumstances warrant. However, to the greatest extent possible, CSBs and the Department shall adhere to these models to support and reinforce more consistent approaches to the operation, management, monitoring, and evaluation of regional programs. CSBs should review these models and, in consultation with the Department, implement the applicable provisions of the model or models best suited to their particular circumstances, so that the operations of any regional program will be congruent with one of these models.

1. Operating CSB-Funded Regional Program Model

1. The CSB that operates a regional program receives state and/or federal from the Department for the program. The operating CSB provides the services, projects the total funding and cost for the regional program in its performance contract and contract revision(s), and reports all data on total actual individuals served, units of service(s) delivered, ~~Community Consumer Submission 3 (CCS 3) extracts and reports~~ funding, expenses, costs, and static capacities ~~in its CARS~~. Other CSBs, which refer individuals to the regional program for services, ~~project and report nothing for the regional program in their contracts for the program service or financial data. ; CARS reports, or CCS 3 extracts.~~
2. The operating CSB admits individuals receiving services from the regional program to the applicable program area (all MH, DV, or SA services) and develops individualized services plans (ISPs) for them for service(s) provided by the regional program. When individuals complete receiving all services from the regional program, they are discharged from the applicable program area by the operating CSB, unless they are receiving other services in that program area from that operating CSB. If individuals are also receiving services from the operating CSB in another program area, the CSB admits them to that program area. The operating CSB provides appropriate information about the services provided and other clinical information to the CSB that referred the individual to the regional program for clinical record keeping purposes at the referring CSB.
3. The operating CSB is responsible for ensuring that all data is accurately maintained in ~~that the appropriate information about individuals and services in the regional program is entered into its information system, so that the information can be extracted by the CCS 3 and reported in the CCS 3 and applicable CARS reports. Thus, for performance contract and reporting purposes, on individuals receiving services from a regional program operated by that CSB. are reported by that operating CSB.~~
4. Each of the other CSBs with individuals receiving services from this regional program admits those individuals to the applicable program area and provides a service, such as case management, consumer monitoring, or another appropriate service, but not in service(s)

**AMENDMENT

ADDENDUM I
ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

provided by the regional program. Thus, individuals receiving services from a regional program will appear in the data reporting ~~CCS-3 extracts~~ for two CSBs, but not for the same services.

5. If the other CSBs with individuals receiving services from this regional program provide additional funds to the operating CSB to supplement the funds that the operating CSB receives from the Department for the regional program, the other CSBs show the revenues and expenses for this supplement on the financial forms in their performance contracts, contract revisions, and reports. However, the other CSBs do not show any services provided, individuals served, or costs for the regional program's services on the service forms in their contracts, revisions, or reports. These other CSBs include an explanation on the Financial Comments page of the difference between the expenses on the financial forms and the costs on the service forms. The operating CSB shows the services provided, individuals served, and total costs (including costs supported by supplements from the other CSBs) for the regional program's services on its service forms, but it does not show any revenues or expenses associated with the supplements on the financial pages in its contract, contract revision(s), and reports. The operating CSB includes an explanation of the difference between the expenses on the financial forms and the costs on the service forms on the Financial Comments page.
6. All of the CSBs, to the extent practicable, determine individual CSB allocations of the state and/or federal ~~and sometimes other~~ funds received from the Department, based on service utilization or an agreed upon formula in collaboration with the Department.
7. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~
8. This model also could be adapted by a region to handle its LIPOS services, if one CSB receives all of the LIPOS funds, admits all of the individuals receiving LIPOS services, and pays all of the LIPOS providers. Participating CSBs should negotiate this adaptation with the Department.

2. All Participating CSBs-Funded Regional Program Model

1. Each CSB that participates and receives state and/or federal ~~sometimes other~~ funds from the Department for the regional program, ~~Each participating CSB~~ may supplement this amount with other funds available to it if the funds received from the Department are not sufficient to cover the regional program's expenses. Each participating CSB uses those funds to purchase services from the regional program for the individuals it serves, projects the funding and cost for the regional program in its performance contract and reports actual individuals served and units of service(s) delivered, funding, expenses, costs, and static capacities in its performance ~~contract reports (CARS)~~ only for the individuals it serves.
2. The regional program operated by one of the participating CSBs functions like a contract agency provider. All of the individual, service, static capacity, funding, expense, and cost information for the whole program is maintained separately and is not included in the contract, contract revision(s), program and financial reports ~~(CARS), and CCS-3 extracts~~ of the CSB

operating the program. The participating CSBs, including the CSB operating the program, include only the parts of this information that apply to the individuals it serves in their contracts, contract revisions, reports, and extracts. The regional program is licensed by the Department, when applicable, and develops and maintains individualized services plans (ISPs) for individuals that it serves.

3. Each participating CSB admits individuals receiving services from the regional program to the applicable program area (all MH, DV, or SA services) for the services provided by the regional program. The services provided by the regional program are listed in the ISPs maintained by the participating CSBs for these individuals. When individuals complete receiving all services from the regional program, they are discharged from the applicable program area by the participating CSB, unless they continue to receive other services in that program area from that participating CSB. The regional program provides appropriate information about the services provided and other clinical information to the CSB that referred the individual to the program, as any contract agency would provide such information to the contracting CSB.

4. Each participating CSB, including the CSB operating the regional program, ensures that the appropriate information about the individuals it serves and their services is entered into its information system, ~~so that the information can be extracted by the CCS 3 and reported in the CCS 3 submissions and applicable CARS reports for that participating CSB.~~

5. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~

3. Fiscal Agent CSB-Funded Regional Program Model

1. One CSB receives state and/or federal ~~sometimes other~~ funds from the Department and acts as the fiscal agent for a regional program. The Department disburses the regional allocation to the fiscal agent CSB on behalf of all CSBs participating in the regional program.

2. The fiscal agent CSB, in collaboration with the other participating CSBs, develops agreed-upon procedures that describe how the CSBs implement the regional program and jointly manage the use of these funds on a regional basis. The procedures also establish and describe how unused funds can be reallocated among the participating CSBs to ensure the greatest possible utilization of the funds. These procedures should be documented in a regional memorandum of agreement (MOA) that is available for review by the Department.

3. The fiscal agent CSB receives the semi-monthly payments of funds from the Department for the regional program. The fiscal agent CSB disburses the regional program funds to individual CSBs, including itself when applicable, in accordance with the procedures in paragraph 2. The fiscal agent CSB displays such disbursements on a Transfer In/Out line of the applicable resources page in its final performance contract revision and its reports. The other CSBs

receiving the transferred funds show the receipt of these funds on the same line. CSBs provide more detailed information about these transfers on the Financial Comments pages of contract revisions and reports.

4. Each CSB implementing a regional program accounts for and reports the funds and expenses associated with the program in its final performance contract ~~revision and CARS~~ reports. The fiscal agent CSB displays the total amount of the allocation as funding and all Transfers Out in its financial ~~CARS~~ reports, but it only displays in its reports the expenses for any regional program that it implements.

5. As an alternative to items 1 through 4 above for certain programs, such as the Discharge Assistance Program, and with the concurrence of the Department, instead of one CSB acting as a fiscal agent, all CSBs participating in that program establish a regional mechanism for managing the use of the regional program funds. The CSBs decide through this regional management mechanism how the total amount of funds for the program should be allocated among them on some logical basis (e.g., approved regional discharge assistance program ISPs). The region informs the Department of the allocations, and the Department adjusts the allocation of each participating CSB and disburses these allocations directly to the participating CSBs. Those CSBs agree to monitor and adjust allocations among themselves during the fiscal year through this regional management mechanism to ensure the complete utilization of these regional program funds, in accordance with the MOA in item 2 above.

6. Each CSB implementing a regional program ensures that appropriate information about the individuals it serves and their services is entered into its information system, ~~so that the CCS 3 can extract the information and report it in the CCS 3 submissions and applicable CARS reports.~~

7. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~

A variation of this model, the Fiscal Agent CSB-Funded Regional Local Inpatient POS Program Model, can be used to implement and manage regional local acute psychiatric inpatient bed purchases.

3.a. Fiscal Agent CSB-Funded Regional Local Inpatient POS Program Model

1. One CSB agrees to act as the fiscal agent for the regional Local Inpatient Purchase of Services (LIPOS) program. The Department disburses the regional LIPOS allocation to the fiscal agent CSB on behalf of all of the CSBs participating in the regional LIPOS program.

2. The fiscal agent CSB, in collaboration with all of the participating CSBs and with consultation from the Department, develops procedures that describe how the CSBs will implement the regional LIPOS program and jointly manage the use of these funds on a regional basis. The procedures include regional utilization management mechanisms, such as regional

authorization committees (RACs) and regional procurements of beds through contracts with private providers. Such contracts may reserve blocks of beds for use by the region or purchase beds or bed days on an as available basis. The procedures also establish and describe how unused funds can be reallocated among the participating CSBs to ensure the greatest possible utilization of the funds. These procedures should be documented in a regional memorandum of agreement (MOA) that is available for review by the Department.

3. The fiscal agent CSB receives the semi-monthly payments of funds from the Department for the regional LIPOS program. The fiscal agent CSB disburses regional LIPOS funds to individual CSBs or uses such funds itself to pay for the costs of local inpatient hospitalizations that have been approved by a regional review and authorization body established by and described in the MOA in item 2 of this section. The fiscal agent CSB displays such disbursements on a Transfer In/Out line of the mental health resources page in its final performance contract revision and reports, and the CSB receiving the transferred funds shows the receipt of these funds on the same line. CSBs provide more detailed information about these transfers on the Financial Comments page of contract revisions and reports.

4. The CSB that purchases local inpatient services accounts for and reports the funds and expenses associated with its LIPOS in its final performance contract revision and financial reports. The fiscal agent CSB displays the total amount of the allocation as funds and all Transfers Out in its CARS reports, but it displays in its reports only the expenses for its own LIPOS.

5. The CSB that purchases the local inpatient services ensures that appropriate information about individuals, services, and costs is entered into its management information system, so that the CCS 3 can extract the information and report it in the CCS 3 submissions and applicable CARS reports.

6. Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.

4. Fiscal Agent CSB-Funded Contract Agency Regional Program Model

1. One CSB receives state and/or federal ~~sometimes other~~ funds from the Department and acts as the fiscal agent for a regional program that is contracted by this fiscal agent CSB to a public or private agency. The Department disburses the regional allocation to the fiscal agent CSB on behalf of all CSB participating in the contracted regional program.
2. The fiscal agent CSB contracts with and provides set monthly payments to a regional program provided by a public or private contract agency on behalf of all of the CSB participating in this regional program. The contract may purchase a pre-set amount of specified services from the

contract agency and pay the agency a predetermined cost, whether or not the participating CSBs use the services.

3. Each participating CSB referring one of the individuals it serves to this contracted regional program admits the individual, enrolls him in the regional program service, and refers him to the contract agency. The contract agency provides information to the referring (case management) CSB, and that CSB maintains information about the individual and the service units in its information system, ~~where the CCS-3 can extract the information.~~
4. The fiscal agent CSB provides program cost information to each referring CSB, based on its use of the regional program, and the referring CSB enters this information in the cost column of the program services form (~~pages AP-1 through AP-4~~) but does not enter any funding or expenditure information in its performance contract report (~~CARS~~). The fiscal agent CSB enters the funding and expenditure information associated with the regional program on the financial forms in its performance contract report, but it enters cost information on the program services form only for the individuals that it referred to the regional program. Each CSB will explain the differences between the financial and program service forms in its performance contract report on the Financial Comments page. The Department will reconcile the differences among the participating CSBs' reports using these comments. Because of the difficulty in calculating the program cost information for each participating CSB, program cost information would only need to be included in end of the fiscal year performance contract (~~CARS~~) reports.
5. All of the participating CSBs, to the extent practicable, determine individual CSB allocations of the state and sometimes other funds received from the Department, based on service utilization or an agreed-upon formula in collaboration with the Department.
6. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~

This model also could be adapted by a region to handle its LIPOS services, if one CSB acts as the fiscal agent and pays all of the LIPOS providers. This adaptation should be negotiated with the Department by the participating CSBs.

Regional Program Procedures

A regional program is funded by the Department through the community services board or behavioral health authority, hereafter referred to as the CSB and operated explicitly to provide services to individuals who receive services from the CSBs participating in the program.

ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

1. Purpose

The CSB may collaborate and act in concert with other CSBs or with other CSBs and state hospitals or training centers, hereafter referred to as state facilities, to operate regional programs, provide or purchase services on a regional basis, conduct regional utilization management, or engage in regional quality improvement efforts. Regional programs include but limited to regional discharge assistance programs (RDAP), local inpatient purchases of services (LIPOS), and other programs such as residential or ambulatory crisis stabilization programs. These procedures apply to all regional programs. While this appendix replaces earlier regional memoranda of agreement (MOAs), CSBs, state facilities, private providers participating in the regional partnership, and other parties may still need to develop MOAs to implement specific policies or procedures to operate regional or sub-regional programs or activities. Also, an MOA must be developed if a regional program intends to establish a peer review committee (e.g., a regional utilization review and consultation team) whose records and reviews would be privileged under § 8.01-581.16 of the Code of Virginia. When the CSB receives state and/or federal funds from the Department for identified regional programs or activities, it shall adhere to the applicable parts of these procedures, which are subject to all applicable provisions of the community services performance contract. In the event of a conflict between any regional program procedures and any provisions of the contract, provisions of the contract shall prevail.

2. Regional Management Group (RMG)

- a. The participating CSBs and/or state facilities shall establish an RMG. The executive director of each participating CSB and the director of each participating state facility shall each serve on or appoint one member of the RMG. The RMG shall manage the regional program and coordinate the use of funding provided for the regional program, review the provision of services offered through the regional program, coordinate and monitor the effective utilization of the services and resources provided through the regional program, and perform other duties that the members mutually agree to carry out. An RMG may deal with more than one regional program.
- b. Although not members of the RMG, designated staff in the Central Office of the Department shall have access to all documents maintained or used by this group, pursuant to applicable provisions of the performance contract, and may attend and participate in all meetings or other activities of this group.
- c. In order to carry out its duties, the RMG may authorize the employment of one or more regional managers to be paid from funds provided for a regional program and to be employed by a participating CSB. The RMG shall specify the job duties and responsibilities for and supervise the regional manager or managers.

3. Regional Utilization Review and Consultation Team (RURCT)

- a. The RMG shall establish a RURCT pursuant to § 8.01-581.16 of the Code of Virginia to, where applicable:
 - 1.) review the implementation of the individualized services plans (ISPs) or individualized Discharge Assistance Program plans (IDAPPs) developed through the regional program to ensure that the services are the most appropriate, effective, and efficient services that meet the clinical needs of the individual receiving services and report the results of these reviews to the RMG;

ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

- 2.) review individuals who have been on the state facility extraordinary barriers to discharge list for more than 30 days to identify or develop community services and funding appropriate to their clinical needs and report the results of these reviews and subsequent related actions to the RMG;
 - 3.) review, at the request of the case management CSB, other individuals who have been determined by state facility treatment teams to be clinically ready for discharge and identify community services and resources that may be available to meet their needs;
 - 4.) facilitate, at the request of the case management CSB, resolution of individual situations that are preventing an individual's timely discharge from a state facility or a private provider participating in the regional partnership or an individual's continued tenure in the community;
 - 5.) identify opportunities for two or more CSBs to work together to develop programs or placements that would permit individuals to be discharged from state facilities or private providers participating in the regional partnership more expeditiously;
 - 6.) promote the most efficient use of scarce and costly services; and
 - 7.) carry out other duties or perform other functions assigned by the RMG.
- b. The RURCT shall consist of representatives from participating CSBs in the region, participating state facilities, private providers participating in the regional partnership, and others who may be appointed by the RMG, such as the regional manager(s) employed pursuant to section II.C. The positions of the representatives who serve on this team shall be identified in local documentation.
- c. The RURCT shall meet monthly or more frequently, when necessary, for example, depending upon census issues or the number of cases to be reviewed. Minutes shall be recorded at each meeting. Only members of the team and other persons who are identified by the team as essential to the review of an individual's case, including the individual's treatment team and staff directly involved in the provision of services to the individual, may attend meetings. All proceedings, minutes, records, and reports and any information discussed at these meetings shall be maintained confidential and privileged, as provided in § 8.01-581.17 of the Code of Virginia.
- d. For the regional program, the RURCT or another group designated by the RMG shall maintain current information to identify and track individuals served and services provided through the regional program. This information may be maintained in participating CSB information systems or in a regional data base. For example, for the RDAP, this information shall include the individual's name, social security number or other unique identifier, other unique statewide identifier, legal status, case management CSB, state hospital of origin, discharge date, state re-hospitalization date (if applicable), and the cost of the IDAPP. This team shall maintain automated or paper copies of records for each RDAP-funded IDAPP. Changes in responsibilities of the case management CSB, defined in the core services taxonomy, and the transfer of RDAP funds shall be reported to the Offices of Grants Management and Mental Health Services in the Department as soon as these changes or transfers are known or at least monthly.
- e. For RDAP, the RURCT shall conduct utilization reviews of ISPs as frequently as needed to ensure continued appropriateness of services and compliance with approved IDAPPs and reviews of quarterly utilization and financial reports and events related to the individual such as re-hospitalization, as appropriate. This utilization review process may result in revisions of IDAPPs or

adjustment to or redistribution of RDAP funds. This provision does not supersede utilization review and audit processes conducted by the Department pursuant to the performance contract.

- f. Although not members of the RURCT, designated staff in the Central Office of the Department shall have access to all documents, including ISPs or IDAPPs, maintained or used by this body, pursuant to applicable provisions of the performance contract, and may attend and participate in all meetings as non-voting members and in other activities of this team.

4. **Operating Procedures for Regional Programs:** These operating procedures establish the parameters for allocating resources for and monitoring continuity of services provided to individuals receiving regional program services. Some of the procedures apply to regional programs generally; others apply to particular regional programs, although they may be able to be adapted to other regional programs.
 - a. Funding for a regional program shall be provided and distributed by the Department to participating CSBs or to a CSB on behalf of the region through their community services performance contracts in accordance with the conditions specified the contract, often in an Exhibit D.
 - b. Each participating CSB or a CSB on behalf of the region shall receive semi-monthly payments of state funds from the Department for the regional program through its community services performance contract, as long as it satisfies the requirements of this appendix and the performance contract, based upon its total base allocation of previously allotted and approved regional program funds.
 - c. Participating CSBs and state facilities shall develop agreed-upon procedures that describe how they will implement a regional program and jointly manage the use of regional program funds on a regional basis. These procedures shall be reduced to writing and provided to the Department upon request.
 - d. Regional program funds may be used to support the activities of the RMG and RURCT.
 - e. Within the allocation of funds for the regional program, funds may be expended for any combinations of services and supports that assure that the needs of individuals are met in community settings. ISPs or IDAPPs must be updated and submitted, as revisions occur or substitute plans are required, to the RMG for approval according to procedures approved by the RMG.
 - f. Regional program funds used to support ISPs or IDAPPs shall be identified on a fiscal year basis. Amounts may be adjusted by the RMG to reflect the actual costs of care based on the regional program's experience or as deemed appropriate through a regional management and utilization review process.
 - g. The CSB responsible for implementing an individual's regional program ISP or IDAPP shall account for and report the funds and expenses associated with the regional program ISP or IDAPP in its community services performance contract and in its quarterly performance contract reports submitted through to the Department.
 - h. The CSB responsible for implementing an individual's regional program ISP or IDAPP shall ensure that the appropriate information about that individual and his or her services is entered into its management information system so that the information can be through reports to the Department.

- i. The participating CSBs may use regional program funds to establish and provide regional or sub-regional services when this is possible and would result in increased cost effectiveness and clinical effectiveness.
- j. Operation of a RDAP is governed by the Discharge Assistance Program Manual issued by the Department and provisions of Exhibit C of the performance contract.

5. General Terms and Conditions

- a. CSBs, the Department, and any other parties participating in a regional program agree that they shall comply with all applicable provisions of state and federal law and regulations in implementing any regional programs to which these procedures apply. The CSB and the Department shall comply with or fulfill all provisions or requirements, duties, roles, or responsibilities in the current community services performance contract in their implementation of any regional programs pursuant to these procedures.
- b. Nothing in these procedures shall be construed as authority for the CSB, the Department, or any other participating parties to make commitments that will bind them beyond the scope of these procedures.
- c. Nothing in these procedures is intended to, nor does it create any claim or right on behalf of any individual to any services or benefits from the CSB or the Department.

6. Project Management

- a. The Department shall be responsible for the allocation of regional program state and federal funds and the overall management of the regional program at the state level.
- b. The RMG shall be responsible for overall management of the regional program and coordination of the use of funding provided for the regional program in accordance with these procedures.
- c. The CSB shall be responsible for managing regional program funds it receives in accordance with these regional program procedures.
- d. Payments generated from third party and other sources for any regional program shall be used by the region or CSB to offset the costs of the regional program. The CSB shall collect and utilize all available funds from other appropriate specific sources before using state and federal funds to ensure the most effective use of these state and federal funds. These other sources include Medicare; Medicaid-fee-for service, targeted case management payments, rehabilitation payments, and ID waiver payments; other third-party payors; auxiliary grants; SSI, SSDI, and direct payments by individuals; payments or contributions of other resources from other agencies, such as social services or health departments; and other state, local, or Department funding sources.
- e. The Department may conduct on-going utilization review and analyze utilization and financial information, and events related to individuals served, such as re-hospitalization, to ensure the continued appropriateness of services and to monitor the outcomes of the regional program. The utilization review process may result in adjustment to or reallocation of state general and federal funding allocations for the regional program.

Appendix F: Regional Program Operations ~~Operating Principles~~

A regional program can be a highly effective way to allocate and manage resources, coordinate the delivery and manage the utilization of high cost or low incidence services, and promote the development of services where economies of scale and effort could assist in the diversion of individuals from admission to state facilities.

A regional program is funded by the Department through the community services board or behavioral health authority, hereafter referred to as the CSB, and operated explicitly to provide services to individuals who receive services from the CSBs participating in the program. A regional program may be managed by the participating CSBs or by one CSB, have single or multiple service sites, and provide one or more types of service. A regional program also may include self contained, single purpose programs (e.g., providing one type of core service, usually residential) operated by one CSB for the benefit of other CSBs or programs contracted by one CSB that serve individuals from other CSBs.

**AMENDMENT
AMENDED AND RESTATED

ADDENDUM I
ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

Each individual receiving services provided through a regional program must be identified as being served by a particular CSB. That CSB will be responsible for contracting for and reporting on the individuals that it serves and the services that it provides; and each individual will access services through and have his or her individualized services plan managed by that particular CSB.

Regional Program Operating Principles

The regional program operating principles provide guidance for CSBs to implement and manage identified regional programs and to account for services provided by the programs. The principles also provide guidance for the Department to monitor regional programs on a more consistent basis.

1. **Regional Program Funding:** Depending on the design of a regional program, the Department may disburse state and/or federal funds for a regional program to each participating CSB or to one CSB that operates a regional program or agrees to serve as the fiscal agent for a regional program. All regional programs shall be included in the performance contract and reflected in required reports.
 - a. If the Department disburses regional program funds to each participating CSB, each participating CSB shall follow existing performance contract and report requirements and procedures for that portion of the regional program funded by that CSB.
 - b. If the Department disburses regional program funds to a CSB that operates a regional program on behalf of the other CSBs in a region, the operating CSB shall follow existing performance contract and report requirements and procedures, as if the regional program were its own program.
 - c. If the Department disburses regional program funds to a CSB that has agreed to serve as the fiscal agent (fiscal agent CSB) for the regional program, disbursements will be based on, accomplished through, and documented by appropriate procedures, developed and implemented by the region.
 - d. When funds are disbursed to a fiscal agent CSB, each participating CSB shall identify, track, and report regional program funds that it receives and spends as funds for that regional program. Each participating CSB, including the fiscal agent CSB, shall reflect in its financial and program reports only its share of the regional program, in terms of individuals served, services provided, funds received, expenses made, and costs of the services. Any monitoring and reporting of and accountability for the fiscal agent CSB's handling of state or federal funds for a regional program shall be accomplished through the performance contract and reports. Alternately, if the participating CSBs elect, each CSB may perform these functions for its share of the regional program.

**AMENDMENT

MASTER AGREEMENT
ADDENDUM I
ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

- e. When funds are disbursed to a fiscal agent CSB that pays a contract agency to deliver regional program services, the fiscal agent CSB and participating CSBs may elect to establish an arrangement in which the fiscal agent CSB reports all of the funds and expenditures in the fiscal report while the participating CSBs and the fiscal agent CSB report information about the program service delivery. Alternately, if the participating CSBs elect, the fiscal agent CSB may admit the individuals served by other participating CSBs and, for purposes of this regional program, treat those individuals as its own for documentation and reporting purposes.
2. Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.
 - a.
 3. **Financial Reporting:** All funds, expenses, and costs for a regional program shall be reported to the Department only once; they may be reported by individual CSBs, the CSB that serves as the fiscal agent, or both, depending on how the regional program is designed and operates. For example, the fiscal agent CSB might report the revenues and expenses for a regional program provided by a contract agency, and a CSB that refers individuals it serves to that regional program may report the service and cost information related to those individuals.
 4. **Consumer Reporting:** Each individual who receives services through a regional program shall be reported to the Department only once for a particular service. However, an individual who receives services from more than one CSB should be reported by each CSB that provides a service to that individual. For example, if an individual receives outpatient mental health services from one CSB and residential crisis stabilization services from a second CSB operating that program on behalf of a region, the individual would be admitted to each CSB and each CSB would report information about the individual and the service it provided to the individual.
 5. **Service Reporting:** Each service provided by a regional program shall be reported only once, either by the CSB providing or contracting for the service or the CSB that referred individuals it served to the regional program operated or contracted by another CSB or by the region.
 6. **Contracted Regional Programs:** When the case management CSB refers an individual to a regional program that is operated by a contract agency and paid for by the regional program's fiscal agent CSB, the case management CSB shall report the service and cost information, and funding and expense information. Alternately, if the participating CSBs elect, the fiscal agent CSB could admit the individual for this service and report information about the individual receiving services, services, costs, funds, and expenses itself; in this situation, the case management CSB would report nothing about this service.

7. Transfers of Resources Among CSBs: CSBs may transfer state, local, and federal funds to each other to pay for services that they purchase from each other.

8. Regional Administrative and Management Expenses: CSBs and the Department have provider and local or state authority roles that involve non-direct services tasks such as utilization management and regional authorization committees. These roles incur additional administrative and management expenses for the programs. CSBs shall report these expenses as part of their costs of delivering regional services. The Department shall factor in and accept reasonable administrative and management expenses as allowable costs in regional programs in accordance with the DBHDS Federal and State Indirect Cost Rate Policy.

9. Local Supplements: If a CSB participating in a regional program supplements the allocation of state and/or federal funds received by the CSB operating that program through transferring resources to the operating CSB, the participating CSB shall show the transfer as an expense on financial forms but not as a cost on service forms in its performance contract and reports. Then, the participating CSB will avoid displaying an unrealistically low service cost in its reports for the regional program and double counting individuals served by and service units delivered in the regional program, since the operating CSB already reports this information.

10. Balances: ~~Unexpended balances of current or previous fiscal year regional program funds should not be retained by the participating CSBs to which the regional fiscal agent CSB or the Department disbursed the funds, unless this is approved by the region for purposes that are consistent with the legislative intent of the Appropriation Act item that provided the funds. Otherwise, the balances should be available for redistribution during the fiscal year among participating CSBs to ensure maximum utilization of these funds. CSBs shall follow Appendix C of this Addendum. Each region shall establish procedures for monitoring expenditures of regional program funds. and redistributing those unexpended balances to ensure that uses of those funds are consistent with the legislative intent of the Appropriation Act item that provided the funds.~~

11. Issue Resolution: Regional program funding issues, such as the amount, sources, or adequacy of funding for the program, the distribution of state allocations for the regional program among participating CSBs, and financial participation of each CSB whose individuals receive services from the regional program, should be resolved at the regional level among CSBs participating in the program, with the Department providing information or assistance as needed or required.

Regional Program Models

The following models have been developed for CSBs and the Department to use in designing, implementing, operating, monitoring, and evaluating regional programs. These models are paradigms that could be altered by mutual agreement among the CSBs and the Department as regional circumstances warrant. However, to the greatest extent possible, CSBs and the Department shall adhere to these models to support and reinforce more consistent approaches to the operation, management, monitoring, and evaluation of regional programs. CSBs should review these models and, in consultation with the Department, implement the applicable provisions of the model or models best suited to their particular circumstances, so that the operations of any regional program will be congruent with one of these models.

1. Operating CSB-Funded Regional Program Model

1. The CSB that operates a regional program receives state and/or federal from the Department for the program. The operating CSB provides the services, projects the total funding and cost for the regional program in its performance contract and contract revision(s), and reports all data on total actual individuals served, units of service(s) delivered, ~~Community Consumer Submission 3 (CCS 3) extracts and reports~~ funding, expenses, costs, and static capacities ~~in its CARS.~~ Other CSBs, which refer individuals to the regional program for services, ~~project and report nothing for the regional program in their contracts for the program service or financial data. ; CARS reports, or CCS 3 extracts.~~
2. The operating CSB admits individuals receiving services from the regional program to the applicable program area (all MH, DV, or SA services) and develops individualized services plans (ISPs) for them for service(s) provided by the regional program. When individuals complete receiving all services from the regional program, they are discharged from the applicable program area by the operating CSB, unless they are receiving other services in that program area from that operating CSB. If individuals are also receiving services from the operating CSB in another program area, the CSB admits them to that program area. The operating CSB provides appropriate information about the services provided and other clinical information to the CSB that referred the individual to the regional program for clinical record keeping purposes at the referring CSB.
3. The operating CSB is responsible for ensuring that all data is accurately maintained in ~~that the appropriate information about individuals and services in the regional program is entered into its information system, so that the information can be extracted by the CCS 3 and reported in the CCS 3 and applicable CARS reports. Thus, for performance contract and reporting purposes, on individuals receiving services from a regional program operated by that CSB. are reported by that operating CSB.~~
4. Each of the other CSBs with individuals receiving services from this regional program admits those individuals to the applicable program area and provides a service, such as case management, consumer monitoring, or another appropriate service, but not in service(s)

provided by the regional program. Thus, individuals receiving services from a regional program will appear in the data reporting ~~CCS-3 extracts~~ for two CSBs, but not for the same services.

5. If the other CSBs with individuals receiving services from this regional program provide additional funds to the operating CSB to supplement the funds that the operating CSB receives from the Department for the regional program, the other CSBs show the revenues and expenses for this supplement on the financial forms in their performance contracts, contract revisions, and reports. However, the other CSBs do not show any services provided, individuals served, or costs for the regional program's services on the service forms in their contracts, revisions, or reports. These other CSBs include an explanation on the Financial Comments page of the difference between the expenses on the financial forms and the costs on the service forms. The operating CSB shows the services provided, individuals served, and total costs (including costs supported by supplements from the other CSBs) for the regional program's services on its service forms, but it does not show any revenues or expenses associated with the supplements on the financial pages in its contract, contract revision(s), and reports. The operating CSB includes an explanation of the difference between the expenses on the financial forms and the costs on the service forms on the Financial Comments page.
6. All of the CSBs, to the extent practicable, determine individual CSB allocations of the state and/or federal ~~and sometimes other~~ funds received from the Department, based on service utilization or an agreed upon formula in collaboration with the Department.
7. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~
8. This model also could be adapted by a region to handle its LIPOS services, if one CSB receives all of the LIPOS funds, admits all of the individuals receiving LIPOS services, and pays all of the LIPOS providers. Participating CSBs should negotiate this adaptation with the Department.

2. All Participating CSBs-Funded Regional Program Model

1. Each CSB that participates and receives state and/or federal ~~sometimes other~~ funds from the Department for the regional program, ~~Each participating CSB~~ may supplement this amount with other funds available to it if the funds received from the Department are not sufficient to cover the regional program's expenses. Each participating CSB uses those funds to purchase services from the regional program for the individuals it serves, projects the funding and cost for the regional program in its performance contract and reports actual individuals served and units of service(s) delivered, funding, expenses, costs, and static capacities in its performance ~~contract reports (CARS)~~ only for the individuals it serves.
2. The regional program operated by one of the participating CSBs functions like a contract agency provider. All of the individual, service, static capacity, funding, expense, and cost information for the whole program is maintained separately and is not included in the contract, contract revision(s), program and financial reports ~~(CARS), and CCS-3 extracts~~ of the CSB

operating the program. The participating CSBs, including the CSB operating the program, include only the parts of this information that apply to the individuals it serves in their contracts, contract revisions, reports, and extracts. The regional program is licensed by the Department, when applicable, and develops and maintains individualized services plans (ISPs) for individuals that it serves.

3. Each participating CSB admits individuals receiving services from the regional program to the applicable program area (all MH, DV, or SA services) for the services provided by the regional program. The services provided by the regional program are listed in the ISPs maintained by the participating CSBs for these individuals. When individuals complete receiving all services from the regional program, they are discharged from the applicable program area by the participating CSB, unless they continue to receive other services in that program area from that participating CSB. The regional program provides appropriate information about the services provided and other clinical information to the CSB that referred the individual to the program, as any contract agency would provide such information to the contracting CSB.

4. Each participating CSB, including the CSB operating the regional program, ensures that the appropriate information about the individuals it serves and their services is entered into its information system, ~~so that the information can be extracted by the CCS 3 and reported in the CCS 3 submissions and applicable CARS reports for that participating CSB.~~

5. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~

3. Fiscal Agent CSB-Funded Regional Program Model

1. One CSB receives state and/or federal ~~sometimes other~~ funds from the Department and acts as the fiscal agent for a regional program. The Department disburses the regional allocation to the fiscal agent CSB on behalf of all CSBs participating in the regional program.

2. The fiscal agent CSB, in collaboration with the other participating CSBs, develops agreed-upon procedures that describe how the CSBs implement the regional program and jointly manage the use of these funds on a regional basis. The procedures also establish and describe how unused funds can be reallocated among the participating CSBs to ensure the greatest possible utilization of the funds. These procedures should be documented in a regional memorandum of agreement (MOA) that is available for review by the Department.

3. The fiscal agent CSB receives the semi-monthly payments of funds from the Department for the regional program. The fiscal agent CSB disburses the regional program funds to individual CSBs, including itself when applicable, in accordance with the procedures in paragraph 2. The fiscal agent CSB displays such disbursements on a Transfer In/Out line of the applicable resources page in its final performance contract revision and its reports. The other CSBs

receiving the transferred funds show the receipt of these funds on the same line. CSBs provide more detailed information about these transfers on the Financial Comments pages of contract revisions and reports.

4. Each CSB implementing a regional program accounts for and reports the funds and expenses associated with the program in its final performance contract ~~revision and CARS~~ reports. The fiscal agent CSB displays the total amount of the allocation as funding and all Transfers Out in its financial ~~CARS~~ reports, but it only displays in its reports the expenses for any regional program that it implements.

5. As an alternative to items 1 through 4 above for certain programs, such as the Discharge Assistance Program, and with the concurrence of the Department, instead of one CSB acting as a fiscal agent, all CSBs participating in that program establish a regional mechanism for managing the use of the regional program funds. The CSBs decide through this regional management mechanism how the total amount of funds for the program should be allocated among them on some logical basis (e.g., approved regional discharge assistance program ISPs). The region informs the Department of the allocations, and the Department adjusts the allocation of each participating CSB and disburses these allocations directly to the participating CSBs. Those CSBs agree to monitor and adjust allocations among themselves during the fiscal year through this regional management mechanism to ensure the complete utilization of these regional program funds, in accordance with the MOA in item 2 above.

6. Each CSB implementing a regional program ensures that appropriate information about the individuals it serves and their services is entered into its information system, ~~so that the CCS 3 can extract the information and report it in the CCS 3 submissions and applicable CARS reports.~~

7. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~

A variation of this model, the Fiscal Agent CSB-Funded Regional Local Inpatient POS Program Model, can be used to implement and manage regional local acute psychiatric inpatient bed purchases.

3.a. Fiscal Agent CSB-Funded Regional Local Inpatient POS Program Model

1. One CSB agrees to act as the fiscal agent for the regional Local Inpatient Purchase of Services (LIPOS) program. The Department disburses the regional LIPOS allocation to the fiscal agent CSB on behalf of all of the CSBs participating in the regional LIPOS program.

2. The fiscal agent CSB, in collaboration with all of the participating CSBs and with consultation from the Department, develops procedures that describe how the CSBs will implement the regional LIPOS program and jointly manage the use of these funds on a regional basis. The procedures include regional utilization management mechanisms, such as regional

authorization committees (RACs) and regional procurements of beds through contracts with private providers. Such contracts may reserve blocks of beds for use by the region or purchase beds or bed days on an as available basis. The procedures also establish and describe how unused funds can be reallocated among the participating CSBs to ensure the greatest possible utilization of the funds. These procedures should be documented in a regional memorandum of agreement (MOA) that is available for review by the Department.

3. The fiscal agent CSB receives the semi-monthly payments of funds from the Department for the regional LIPOS program. The fiscal agent CSB disburses regional LIPOS funds to individual CSBs or uses such funds itself to pay for the costs of local inpatient hospitalizations that have been approved by a regional review and authorization body established by and described in the MOA in item 2 of this section. The fiscal agent CSB displays such disbursements on a Transfer In/Out line of the mental health resources page in its final performance contract revision and reports, and the CSB receiving the transferred funds shows the receipt of these funds on the same line. CSBs provide more detailed information about these transfers on the Financial Comments page of contract revisions and reports.

4. The CSB that purchases local inpatient services accounts for and reports the funds and expenses associated with its LIPOS in its final performance contract revision and financial reports. The fiscal agent CSB displays the total amount of the allocation as funds and all Transfers Out in its CARS reports, but it displays in its reports only the expenses for its own LIPOS.

5. The CSB that purchases the local inpatient services ensures that appropriate information about individuals, services, and costs is entered into its management information system, so that the CCS 3 can extract the information and report it in the CCS 3 submissions and applicable CARS reports.

6. Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.

4. Fiscal Agent CSB-Funded Contract Agency Regional Program Model

1. One CSB receives state and/or federal ~~sometimes other~~ funds from the Department and acts as the fiscal agent for a regional program that is contracted by this fiscal agent CSB to a public or private agency. The Department disburses the regional allocation to the fiscal agent CSB on behalf of all CSB participating in the contracted regional program.
2. The fiscal agent CSB contracts with and provides set monthly payments to a regional program provided by a public or private contract agency on behalf of all of the CSB participating in this regional program. The contract may purchase a pre-set amount of specified services from the

contract agency and pay the agency a predetermined cost, whether or not the participating CSBs use the services.

3. Each participating CSB referring one of the individuals it serves to this contracted regional program admits the individual, enrolls him in the regional program service, and refers him to the contract agency. The contract agency provides information to the referring (case management) CSB, and that CSB maintains information about the individual and the service units in its information system, ~~where the CCS-3 can extract the information.~~
4. The fiscal agent CSB provides program cost information to each referring CSB, based on its use of the regional program, and the referring CSB enters this information in the cost column of the program services form (~~pages AP-1 through AP-4~~) but does not enter any funding or expenditure information in its performance contract report (~~CARS~~). The fiscal agent CSB enters the funding and expenditure information associated with the regional program on the financial forms in its performance contract report, but it enters cost information on the program services form only for the individuals that it referred to the regional program. Each CSB will explain the differences between the financial and program service forms in its performance contract report on the Financial Comments page. The Department will reconcile the differences among the participating CSBs' reports using these comments. Because of the difficulty in calculating the program cost information for each participating CSB, program cost information would only need to be included in end of the fiscal year performance contract (~~CARS~~) reports.
5. All of the participating CSBs, to the extent practicable, determine individual CSB allocations of the state and sometimes other funds received from the Department, based on service utilization or an agreed-upon formula in collaboration with the Department.
6. ~~Regional programs should receive the same state funding increases as regular CSB grant-funded activities, such as the salary increases for community services provided from time to time by the General Assembly in the Appropriation Act.~~

This model also could be adapted by a region to handle its LIPOS services, if one CSB acts as the fiscal agent and pays all of the LIPOS providers. This adaptation should be negotiated with the Department by the participating CSBs.

Regional Program Procedures

A regional program is funded by the Department through the community services board or behavioral health authority, hereafter referred to as the CSB and operated explicitly to provide services to individuals who receive services from the CSBs participating in the program.

1. Purpose

The CSB may collaborate and act in concert with other CSBs or with other CSBs and state hospitals or training centers, hereafter referred to as state facilities, to operate regional programs, provide or purchase services on a regional basis, conduct regional utilization management, or engage in regional quality improvement efforts. Regional programs include but limited to regional discharge assistance programs (RDAP), local inpatient purchases of services (LIPOS), and other programs such as residential or ambulatory crisis stabilization programs. These procedures apply to all regional programs. While this appendix replaces earlier regional memoranda of agreement (MOAs), CSBs, state facilities, private providers participating in the regional partnership, and other parties may still need to develop MOAs to implement specific policies or procedures to operate regional or sub-regional programs or activities. Also, an MOA must be developed if a regional program intends to establish a peer review committee (e.g., a regional utilization review and consultation team) whose records and reviews would be privileged under § 8.01-581.16 of the Code of Virginia. When the CSB receives state and/or federal funds from the Department for identified regional programs or activities, it shall adhere to the applicable parts of these procedures, which are subject to all applicable provisions of the community services performance contract. In the event of a conflict between any regional program procedures and any provisions of the contract, provisions of the contract shall prevail.

2. Regional Management Group (RMG)

- a. The participating CSBs and/or state facilities shall establish an RMG. The executive director of each participating CSB and the director of each participating state facility shall each serve on or appoint one member of the RMG. The RMG shall manage the regional program and coordinate the use of funding provided for the regional program, review the provision of services offered through the regional program, coordinate and monitor the effective utilization of the services and resources provided through the regional program, and perform other duties that the members mutually agree to carry out. An RMG may deal with more than one regional program.
- b. Although not members of the RMG, designated staff in the Central Office of the Department shall have access to all documents maintained or used by this group, pursuant to applicable provisions of the performance contract, and may attend and participate in all meetings or other activities of this group.
- c. In order to carry out its duties, the RMG may authorize the employment of one or more regional managers to be paid from funds provided for a regional program and to be employed by a participating CSB. The RMG shall specify the job duties and responsibilities for and supervise the regional manager or managers.

3. Regional Utilization Review and Consultation Team (RURCT)

- a. The RMG shall establish a RURCT pursuant to § 8.01-581.16 of the Code of Virginia to, where applicable:
 - 1.) review the implementation of the individualized services plans (ISPs) or individualized Discharge Assistance Program plans (IDAPPs) developed through the regional program to ensure that the services are the most appropriate, effective, and efficient services that meet the clinical needs of the individual receiving services and report the results of these reviews to the RMG;

ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

- 2.) review individuals who have been on the state facility extraordinary barriers to discharge list for more than 30 days to identify or develop community services and funding appropriate to their clinical needs and report the results of these reviews and subsequent related actions to the RMG;
 - 3.) review, at the request of the case management CSB, other individuals who have been determined by state facility treatment teams to be clinically ready for discharge and identify community services and resources that may be available to meet their needs;
 - 4.) facilitate, at the request of the case management CSB, resolution of individual situations that are preventing an individual's timely discharge from a state facility or a private provider participating in the regional partnership or an individual's continued tenure in the community;
 - 5.) identify opportunities for two or more CSBs to work together to develop programs or placements that would permit individuals to be discharged from state facilities or private providers participating in the regional partnership more expeditiously;
 - 6.) promote the most efficient use of scarce and costly services; and
 - 7.) carry out other duties or perform other functions assigned by the RMG.
- b. The RURCT shall consist of representatives from participating CSBs in the region, participating state facilities, private providers participating in the regional partnership, and others who may be appointed by the RMG, such as the regional manager(s) employed pursuant to section II.C. The positions of the representatives who serve on this team shall be identified in local documentation.
- c. The RURCT shall meet monthly or more frequently, when necessary, for example, depending upon census issues or the number of cases to be reviewed. Minutes shall be recorded at each meeting. Only members of the team and other persons who are identified by the team as essential to the review of an individual's case, including the individual's treatment team and staff directly involved in the provision of services to the individual, may attend meetings. All proceedings, minutes, records, and reports and any information discussed at these meetings shall be maintained confidential and privileged, as provided in § 8.01-581.17 of the Code of Virginia.
- d. For the regional program, the RURCT or another group designated by the RMG shall maintain current information to identify and track individuals served and services provided through the regional program. This information may be maintained in participating CSB information systems or in a regional data base. For example, for the RDAP, this information shall include the individual's name, social security number or other unique identifier, other unique statewide identifier, legal status, case management CSB, state hospital of origin, discharge date, state re-hospitalization date (if applicable), and the cost of the IDAPP. This team shall maintain automated or paper copies of records for each RDAP-funded IDAPP. Changes in responsibilities of the case management CSB, defined in the core services taxonomy, and the transfer of RDAP funds shall be reported to the Offices of Grants Management and Mental Health Services in the Department as soon as these changes or transfers are known or at least monthly.
- e. For RDAP, the RURCT shall conduct utilization reviews of ISPs as frequently as needed to ensure continued appropriateness of services and compliance with approved IDAPPs and reviews of quarterly utilization and financial reports and events related to the individual such as re-hospitalization, as appropriate. This utilization review process may result in revisions of IDAPPs or

adjustment to or redistribution of RDAP funds. This provision does not supersede utilization review and audit processes conducted by the Department pursuant to the performance contract.

- f. Although not members of the RURCT, designated staff in the Central Office of the Department shall have access to all documents, including ISPs or IDAPPs, maintained or used by this body, pursuant to applicable provisions of the performance contract, and may attend and participate in all meetings as non-voting members and in other activities of this team.

4. **Operating Procedures for Regional Programs:** These operating procedures establish the parameters for allocating resources for and monitoring continuity of services provided to individuals receiving regional program services. Some of the procedures apply to regional programs generally; others apply to particular regional programs, although they may be able to be adapted to other regional programs.
 - a. Funding for a regional program shall be provided and distributed by the Department to participating CSBs or to a CSB on behalf of the region through their community services performance contracts in accordance with the conditions specified the contract, often in an Exhibit D.
 - b. Each participating CSB or a CSB on behalf of the region shall receive semi-monthly payments of state funds from the Department for the regional program through its community services performance contract, as long as it satisfies the requirements of this appendix and the performance contract, based upon its total base allocation of previously allotted and approved regional program funds.
 - c. Participating CSBs and state facilities shall develop agreed-upon procedures that describe how they will implement a regional program and jointly manage the use of regional program funds on a regional basis. These procedures shall be reduced to writing and provided to the Department upon request.
 - d. Regional program funds may be used to support the activities of the RMG and RURCT.
 - e. Within the allocation of funds for the regional program, funds may be expended for any combinations of services and supports that assure that the needs of individuals are met in community settings. ISPs or IDAPPs must be updated and submitted, as revisions occur or substitute plans are required, to the RMG for approval according to procedures approved by the RMG.
 - f. Regional program funds used to support ISPs or IDAPPs shall be identified on a fiscal year basis. Amounts may be adjusted by the RMG to reflect the actual costs of care based on the regional program's experience or as deemed appropriate through a regional management and utilization review process.
 - g. The CSB responsible for implementing an individual's regional program ISP or IDAPP shall account for and report the funds and expenses associated with the regional program ISP or IDAPP in its community services performance contract and in its quarterly performance contract reports submitted through to the Department.
 - h. The CSB responsible for implementing an individual's regional program ISP or IDAPP shall ensure that the appropriate information about that individual and his or her services is entered into its management information system so that the information can be through reports to the Department.

- i. The participating CSBs may use regional program funds to establish and provide regional or sub-regional services when this is possible and would result in increased cost effectiveness and clinical effectiveness.
- j. Operation of a RDAP is governed by the Discharge Assistance Program Manual issued by the Department and provisions of Exhibit C of the performance contract.

5. General Terms and Conditions

- a. CSBs, the Department, and any other parties participating in a regional program agree that they shall comply with all applicable provisions of state and federal law and regulations in implementing any regional programs to which these procedures apply. The CSB and the Department shall comply with or fulfill all provisions or requirements, duties, roles, or responsibilities in the current community services performance contract in their implementation of any regional programs pursuant to these procedures.
- b. Nothing in these procedures shall be construed as authority for the CSB, the Department, or any other participating parties to make commitments that will bind them beyond the scope of these procedures.
- c. Nothing in these procedures is intended to, nor does it create any claim or right on behalf of any individual to any services or benefits from the CSB or the Department.

6. Project Management

- a. The Department shall be responsible for the allocation of regional program state and federal funds and the overall management of the regional program at the state level.
- b. The RMG shall be responsible for overall management of the regional program and coordination of the use of funding provided for the regional program in accordance with these procedures.
- c. The CSB shall be responsible for managing regional program funds it receives in accordance with these regional program procedures.
- d. Payments generated from third party and other sources for any regional program shall be used by the region or CSB to offset the costs of the regional program. The CSB shall collect and utilize all available funds from other appropriate specific sources before using state and federal funds to ensure the most effective use of these state and federal funds. These other sources include Medicare; Medicaid-fee-for service, targeted case management payments, rehabilitation payments, and ID waiver payments; other third-party payors; auxiliary grants; SSI, SSDI, and direct payments by individuals; payments or contributions of other resources from other agencies, such as social services or health departments; and other state, local, or Department funding sources.
- e. The Department may conduct on-going utilization review and analyze utilization and financial information, and events related to individuals served, such as re-hospitalization, to ensure the continued appropriateness of services and to monitor the outcomes of the regional program. The utilization review process may result in adjustment to or reallocation of state general and federal funding allocations for the regional program.

**ADDENDUM I
ADMINISTRATIVE REQUIREMENTS AND PROCESSES AND PROCEDURES**

I. Background

The Administrative Requirements and Processes and Procedures include statutory, regulatory, policy, process and procedures and other requirements that are not expected to change frequently. The CSB and the Department shall comply with these requirements and processes and procedures. This document is incorporated into and made a part of the Community Services Performance Contract (PC) by reference. The Department will work with the CSBs regarding any substantive changes to this document, with the exception of changes in statutory, regulatory, policy, or other requirements.

The provisions of this agreement apply to all CSBs, [Chapter 5 Section 37.2-100](#) defines the four types of CSB organizational structure and [Chapter 6 Section 37.2-601](#) further defines the organizational structure of a Behavioral Health Authority (BHA). As such, the precise application of these provisions will vary across the different organizational types. All CSBs are required to meet the provisions herein, but some CSBs may meet said provisions by their nature as subsections of a local government or similar. This agreement does not, in any way, seek to contradict or otherwise be in opposition to local government policy/procedure as it applies to any of the subject matter discussed.

An illustrative example: All CSBs are required to have an annual audit. Operational CSBs must conduct this audit by contracting with an appropriate third party. Administrative Policy CSBs may satisfy this requirement by ensuring the CSB is included appropriately in the required annual audit conducted by the local governing body.

II. CSB Requirements

A. Financial Management Requirements, Policies, and Procedures

CSB's financial management and accounting system shall operate and produce financial statements and reports in accordance with Generally Accepted Accounting Principles, compliance with requirements of Governmental Accounting Standards Board (GASB), and Code of Federal Regulations, [2 CFR Part 200](#).

1. **Accounting:** CSBs shall account for all service and administrative expenses accurately and submit timely reports to the Department to document these expenses.
2. **Annual Independent Audit:** CSBs shall obtain an independent annual audit conducted by certified public accountants.
 - a. Audited financial statements shall be prepared in accordance with generally accepted accounting principles (GAAP) and compliance with Code of Federal Regulations, [2 CFR Part 200](#).
 - b. Copies of the audit and the accompanying management letter shall be provided to the Office of Budget and Financial Reporting in the Department and to each local government that established the CSB.
 - c. Deficiencies and exceptions noted in an audit or management letter shall be resolved or corrected in a timely manner defined more precisely through discussions between the CSB and the Department.
 - d. For a CSB that is included in the annual audit of its local government.
 - i. Copies of the applicable portions of the accompanying management letter shall be provided to the Office of Budget and Financial Reporting in the Department.
 - ii. Deficiencies and exceptions noted in a management letter shall be resolved or corrected in a timely manner defined more precisely through discussions between the CSB, the local government entity and the Department.
3. **Federal Audit Requirements:** When the Department issues subawards of federal grants to a CSB, the CSB shall satisfy all federal government audit requirements.

4. **Subcontractor Audits:** The CSB shall obtain, review, and take any necessary actions on audits of any subcontractors that provide services that are procured under the Virginia Public Procurement Act and included in a CSB's performance contract. The CSB shall provide copies of these audits to the Office of Budget and Financial Reporting in the Department.
5. **Bonding:** CSB employees with financial responsibilities shall be bonded in accordance with local financial management policies.
6. **Fiscal Policies and Procedures:** A CSB's written fiscal policies and procedures shall conform to applicable local government policy or, in absence of local governing requirements, State Board policies and Departmental Policies and procedures.
7. **Additional Financial Management Requirements:** The CSB shall comply with the following requirements, as applicable.
 - a. CSBs may not use the same Certified Public Accountant (CPA) for both production of their annual financial statements and execution of their independent audit.
 - b. Operating CSBs and the BHA shall rebid their CPA audit contracts at least every five (5) years once the current CPA contracts expire. CSB's will ensure their contract with the audit firm gives them the right to rebid annual audit services if the firm is more than 60 days late for two consecutive years.
 - c. All CSB bank accounts shall be reconciled monthly, with the appropriate segregation of duties, and a designated staff person not involved in preparing the reconciliation shall approve it.

As the healthcare technology landscape continues to evolve, it is important for all healthcare operations to responsibly leverage new technology to improve patient care and business operations.

DBHDS recognizes that CSBs are healthcare entities subject to various federal and state regulation including but not limited to HIPAA and 42 CFR Part 2. To support compliance with these regulations, the Department and CSBs will establish a collaborative workgroup by the end of the first quarter of the 2027 fiscal year. The workgroup will develop IT Security and Compliance protocols to protect sensitive healthcare data and protect both parties from unnecessary data security risk.

The below, baseline requirements exist today. The workgroup may identify more requirements for this section to be included in future agreements.

Background

The Department expects all CSBs to comply with the IT Security and Artificial Intelligence requirements outlined in this section. These requirements align with current Commonwealth of Virginia Executive Orders, as well as applicable state and federal laws and regulations.

The Parties acknowledge that security standards will continue to evolve, and updates may be required as future versions of standards are released. DBHDS will monitor security and reporting initiatives related to the overall security posture and will coordinate with CSBs in a timely manner to implement evolving controls and address new security requirements.

Scope

The Department, as a healthcare oversight agency, is required to ensure IT Security and Compliance for all systems owned and operated by the Department. Further, the Department is required to ensure all data entering IT systems owned and operated by the Department, via integration or other means, do not pose avoidable risks to data security.

CSBs are responsible for the compliance of their business and data systems in accordance with federal and state laws and regulations. The Department does not oversee or bear any responsibility for a CSB's use of security controls, artificial intelligence tools, tools, processes and workflows that do not impact data or IT systems owned or operated by the department.

IT Security and Compliance

Regardless of other provisions in this agreement, each CSB must comply with State Code § 2.2-5514, "Prohibited products and services and required incident reporting."

CSBs are responsible for managing the access their employees receive to Department owned or operated systems if such access is granted based upon an individual's business needs associated with the CSB. The aforementioned workgroup will develop processes and procedures for cataloging all DBHDS systems to which CSB users have access as well as the process CSBs will use to notify DBHDS of the occurrence of, or need for access suspension. CSBs will be responsible for maintaining documentation of their users' access to DBHDS systems and must notify the established DBHDS IT points of contact in a timely manner when access changes are needed, access is no longer required, personnel are terminated, or a breach occurs.

Artificial Intelligence (AI)

The Commonwealth of Virginia recognizes the value of Artificial Intelligence (AI) technologies and has implemented guardrails to protect the privacy, security, and confidentiality of Commonwealth applications and data.

The VITA Policy Standards for the Utilization of Artificial Intelligence by the Commonwealth of Virginia govern the Department's use of these tools and may govern interactions between the parties in cases involving sensitive information.

Finally, under no circumstances will an unauthorized AI tool have access to DBHDS systems directly or indirectly via access to CSB systems. This is to maintain compliance with the VITA Enterprise Architecture Standard (EA225) which requires compliance with all applicable solution business requirements, including design/architecture, availability/performance, capacity, continuity, integration/interoperability, technology, and security requirements outlined in the standard.

FINAL DRAFT

DBHDS Program Funding

State and Federal Indirect Cost Rate Policy

Federal Indirect Cost Rate

The Office of Management and Budget (OMB) updated grant guidance effective October 1, 2024, allowing:

- An increase in the allowable indirect cost rate from 10% to 15% of Modified Total Direct Costs (MTDC).
- An increase in the MTDC subaward ceiling from \$25,000 to \$50,000.
- An increase in the threshold for equipment from \$5,000 to \$10,000.
- The revised rate can only be claimed on costs incurred after Oct. 1, 2024

Community Services Boards (CSBs) with a negotiated Indirect Cost Rate above 15% from their cognizant federal agency shall be honored by DBHDS.

Definitions

Indirect Costs: Includes costs incurred for a common or joint purpose benefiting more than one cost objective (e.g., accounting, HR, procurement, administration).

Modified Total Direct Cost (MTDC) Includes all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$50,000 of each subaward (regardless of the period of performance of the subawards under the award).

MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each subaward in excess of \$50,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.

Federal Negotiated Indirect Cost Rate (NICRA)

Pass-through entities (PTE) must accept all federally negotiated indirect cost rates for subrecipients per 2 CFR § 200.332(b)(4). The pass-through entity must not require the use of the de minimis indirect cost rate (current 15%) if the subrecipient has an approved indirect cost rate negotiated with the Federal Government. ([§ 200.332 Requirements for pass-through entities](#))

DBHDS Program Funding

State and Federal Indirect Cost Rate Policy

DBHDS State Indirect Cost Rate (IDCR)

The indirect cost rate in Virginia varies by organization and funding source. Rates for state agencies are often set by the Virginia Department of Planning and Budget (DPB). DBHDS does not have a DPB-established rate; therefore, DBHDS Executive Leadership must establish, review, and approve any changes.

State Indirect Cost Rate Definitions

Direct Administrative Costs: Includes costs directly related to program administration (e.g., salaries, fringe benefits, materials, supplies, contractual costs).

Indirect Costs: Includes Costs benefiting multiple programs within a CSB (e.g., administrative staff salaries, finance, quality, postage, security).

Program Services

Effective July 1, 2026 the allowable individual program services (non-regional) indirect cost rate will be set at 15%. Due to program-specific considerations, DBHDS may, under certain circumstances, apply a rate lower than 15%.

The Federal Negotiated Indirect Cost Rate (NICRA) is not applicable to state funds. Use of the Federal Negotiated Indirect Cost Rate (NICRA) for state general funds must be reviewed and approved through a contract agreement with the Department.

Regional Administrative Indirect Cost Rate

Effective July 1, 2026 the Regional Administrative Indirect Cost Rate for state funding may be allocated directly to CSBs by DBHDS, through the Regional Fiscal Agent, who may retain a portion for administrative costs:

- **Pass-through only: Up to 5%** - For the purposes of this policy, pass-through means for the purchase of services on behalf of individuals. If the Regional Fiscal Agent is only passing the funding through to another CSB or service entity and does not enter into a contract or manage the program for which the funds are intended, the Regional Fiscal Agent may retain the allocation amount for Administrative Costs.
- **Subcontract management: Up to 7.5%** - If the Regional Fiscal Agent enters into a subcontract with another entity which will allow the third party to administer the service or program, the Regional Fiscal Agent may retain the allocation for Administrative Costs.

DBHDS Program Funding

State and Federal Indirect Cost Rate Policy

- **Direct program administration: Up to 15%** - If the Regional Fiscal Agent is directly administering the program or service for which the funds are intended, the Regional Fiscal Agent may retain the allocation for Administrative Costs.

The Federal Negotiated Indirect Cost Rate (NICRA) is not applicable to state funds. Use of the Federal Negotiated Indirect Cost Rate (NICRA) for state general funds must be reviewed and approved through a contract agreement with the Department.
